LOWDEN LEADS HOOVER, DAWES IN STRAW VOTE

Tribune Poll Testing Chicago G. O. P.

BY OSCAR HEWITT.

The first figures in THE TRIBUNE "straw vote" on Republican candidates at the primary April 10 have been tabulated as to the presidential possibilities.

These ballots express the preference of 1,828 Chicago Republican voters from former primary lists. The voters of the electorate are being obtained through the mails by means of a return postal card, which conceals completely the identity of the voter.

The first results are as follows:

| Candidate | Votes | Per Cent |
|-----------|-------|----------|
| Lowden | 666 | 36.42 |
| Hoover | 502 | 27.46 |
| Dawes | 531 | 28.56 |
| Coolidge | 139 | 7.51 |
| Other | 1,828 | 99.99 |

These results differ from a preliminary tabulation of the first 561 straws turned in. In that previous tabulation, Mr. Lowden received 39.21 per cent, Mr. Hoover 25.31 per cent, Mr. Dawes 28 per cent, and Mr. Coolidge 7.48 per cent.

It is apparent that with the larger number of straws—Mr. Lowden is proportionately, Mr. Hoover second, while the Vice President and the President remained with the same approximate strength.

Primary Test Different.

In recent elections THE TRIBUNE has been reasonably reliable; a straw vote on a primary is something considerably different. The number of voters who participate in primary is much smaller than in an election. Many voters of one party occasionally vote in the primary of the opposing party.

The cheating in both voting and counting in a primary is a much more substantial factor than in an election. It has often been charged that the straws in a primary changed its results.

While more than ordinary care has been taken to obtain a poll which will indicate in advance the primary results of April 10 on the Republican side where there is a contest, let it be remembered that it has been many times over—since a successful straw vote has been taken in Chicago—experience and precaution which THE TRIBUNE heretofore has applied to election polls with satisfactory results has been utilized in this primary poll. But necessarily the effort—although theoretically sound—is partly experimental; and the results are presented for whatever they may be worth.

Only Lowden on Ballot.

The ballot sent only to persons who could have voted as Republicans in a primary, contains three names: President, Lowden, Hoover, and Dawes, although only the name of the straws ex-governor will appear on the primary ballot. In addition to the name, however, a blank space has been provided, where voters may express their preference for a presidential candidate.

These straws have been sent to the voters, among them the "draft" of President Coolidge.

It will be noticed by the table above that less than eight per cent of the straws have adopted the "draft" idea, to which Mayor Swanson has devoted considerable attention. From other figures it has been reckoned that the Small-Thompson combination has been unable to get 20 per cent of its followers to adopt the "draft" idea, if the first 1,828 straws are an index.

There are other and more striking figures in the figures, of which the following explanation is given: The first returns are from persons who are more alert politically than is the average citizen.

Where Small Is Strong.

The stronghold of the Small-Thompson crowd is among the colored voters of the south side. More than half of the straws presented today were obtained on the south side.

The following table shows the distribution of the 1,828 votes among the three straws of the city:

| Candidate | Votes | Per Cent |
|-----------|-------|----------|
| Lowden | 666 | 36.42 |
| Hoover | 502 | 27.46 |
| Dawes | 531 | 28.56 |
| Coolidge | 139 | 7.51 |
| Other | 1,828 | 99.99 |

More interesting to those concerned with politics is the number of votes each candidate obtained on page 4, column 1.

BRITISH OIL KING'S KIN SHOTS WIFE, TAKES OWN LIFE

[Chicago Tribune Press Service.]

THE HAGUE, March 26.—A sensation was caused in Amsterdam this morning by a domestic tragedy involving two members of the family of the noted oil king, Sir Henri Detering, director general of the Royal Dutch Oil company. Sir Henri is in America in connection with the fight against the Standard Oil group.

Mme. van Eeghen, Sir Henri's niece, was found shot in the head in her bedroom, and is in a critical condition. Her husband was dead, also shot in the head. Mme. van Eeghen was 29 years old and the only woman member of the stock exchange. Her husband was 39, and a noted rubber merchant.

Servants said they heard the pair quarrelling violently this morning, followed by revolver shots. Police believe he shot his wife and then killed himself.

Germans Begin Sea Hop; 'N.Y. or Heaven'

BY HUGH CURRAN.

[Chicago Tribune Press Service.]

(Copyright 1928; By The Chicago Tribune.)

(Pictures on back page.)

DUBLIN, March 26.—The German airman, Capt. Herman Koehl, Baron E. G. von Huenfeld, and Arthur Spindler, arrived over Baldonnel aerodrome, near here, at 4:15 o'clock this afternoon, completing the first stage of an attempt to fly from Berlin across the Atlantic to the American shores. They left the German capital at 8:30 this morning headed for "New York or heaven," to quote the Baron.

The airman, who hope to be the first to fly the Atlantic in a plane from east to west, circled over Dublin for fifteen minutes and then landed successfully at the aerodrome. Commandant Fitzmaurice met the Germans over Dublin in a Moth airplane and guided them to the field.

Hope to Hop Off Tomorrow.

Newspaper men were barred from the aerodrome, but it is understood that the aviators will wait for favorable conditions. They are in readiness to hop off at any moment. If possible, they want to get away at 5 a. m. Wednesday. They reported a good voyage from Berlin to Ireland, a flight of 992 miles.

A few slight repairs are to be made on the machine. It is the single motor ship Bremen in which Capt. Koehl and the Baron started on a trans-Atlantic flight last year. They were obliged to turn back after fighting head winds for more than twenty hours.

WINTRY BLAST FORCES SPRING TO MARK TIME

(Picture on back page.)

Rain, sleet, snow, high winds and a rapid fall in temperature marked the return of winter to Chicago yesterday.

The mercury had fallen at midnight last night to 22 above zero, a drop of 46 degrees from Sunday's high summerlike mark of 70, and the snow lay in a blanket three inches deep over the streets and roofs of the city.

The return to normal weather conditions, it was indicated in the official forecast, will be gradual, with a slow rise of the mercury.

Two sailors who went out on the lake from South Chicago during the afternoon were saved from the waves which were breaking over their disabled fishing boat by coast guardsmen. Paul Thomas, 2226 East 92nd street, and a companion, were the two who had thrown out their anchor, but the waves were so strong that it was dragging when the rescuers headed by Capt. A. F. Brown of the South Chicago station of the guard, reached them. They were towed in after an hour's work.

Seagulls Wreck Plane; Flyer Killed; Another Hurt

San Francisco, Cal., March 26.—(AP)—Second Lieutenant Theodore J. Munich was killed and Master Sergeant William L. Klutz positively fatally injured today when their airplane from Crissy field plunged 500 feet into San Francisco bay. Witnesses said the plane ran into a flock of seagulls.

4 MILLION SHARE DAY SENDS N. Y. STOCKS SOARING

Gen. Motors Leads in Wild Buying Wave.

New York, March 26.—[Special.]—A record purchase and sale of 4,176,200 shares of stock, the greatest volume in the history of the New York stock exchange, passed over the stuttering tickers today to the accompaniment of a wave of buying which swept bears off their feet. The previous record was 3,947,530 shares sold on March 13.

Thirty-seven individual stocks soared to new marks today and rolled up gains ranging from a point or so to as much as 12 1/2 points. The advance covered a wide range of issues representative of half a dozen of the country's leading industries, notably automobiles, railroads, machinery, mail order, steel, drugs, and tobacco.

A bull market in exchange seats developed at the same time and a membership on the New York stock exchange sold at \$375,000, with bids reported as high as \$380,000.

Motors and Steel Leaders.

General Motors and United States Steel common were the undisputed leaders and were purchased in such steady volume and in such tremendous blocks as to leave the financial district gasping. General Motors opened at 19 1/2, climbed to 199 during the day and closed at 198 1/2, a net gain of 8 1/2. United States Steel gained 2 1/2, closing at 150 1/2, with 205,000 shares dealt in.

General Motors was still reflecting, no doubt, the statement of John J. Raskob, chairman of the corporation's finance committee, who declared just before he sailed for Europe last Saturday that the shares should sell on the basis of 15 times the corporation's earnings.

Flood of Orders.

At any rate, such an accumulation of orders had reached Wall street by opening time this morning, in General Motors as well as in a dozen other stocks, that it was 9 minutes after the hour of 10 had struck before exchange authorities could untangle the struggling brokers at the General Motors post and ascertain the opening price.

It was 10,000 shares, of which 7,000 sold at 194 and 3,000 sold at 193 1/2. From that time on, until the final quotation had been printed at 3:15 o'clock, it was hammer and tongs. The exchange floor was seething with excitement, wires were flooded with buy and sell orders, brokers and clerks were working at top speed, and millions in securities values rapidly changed hands.

Other Auto Stocks Soar.

The development which attracted the most attention in Wall street was that the shares of four independent motor manufacturers suddenly joined in the upsurge with General Motors and drove forward at a dizzy pace. They were Chrysler, which gained 8 1/2, Hudson, which advanced 3 1/2, Hupp, 4 1/2, and Studebaker, 3 1/2.

These issues, while fairly strong in recent markets, have been more or less overshadowed by the perpendicular climb of General Motors and by the country wide interest in that particular stock. They "came up into line" under an avalanche of buying orders which caught many steps on the way up, causing a helter-skelter retreat by the bears. At the close they were within a fraction of their high points of the day.

Sears-Roebuck gained 12 1/2 points and Montgomery Ward 5 1/2 points.

Speculative Flame Kindled.

From the outside viewpoint the day was a repetition of the other big market days of the past fortnight, in which a speculative flame had been kindled that had extended to every city, town, and village in the country, and which has brought to the stock market, for a "flutter," all descriptions of people, with plenty of money. It marked the twelfth consecutive five-hour day on which the sales have been more than 3,000,000 shares, and the longest sustained advance in many issues in the history of the stock exchange.

It is true, too, that the powerful pools and the individual operators who are guiding the market are perfectly willing to buy tremendous blocks of stock at present prices and to "clean up the specialists." What happened today was the sheer weight of buying orders overwhelming all obstacles in the path of higher prices.

DENEEN, CROWE, TRUDE, SWANSON MAKE CHARGES

Political War Blamed for Attacks.

Senator Deneen and Judge Daniel P. Trude, speaking for the Deneen political faction, as well as Judge Swanson and State's Attorney Crowe, made statements reflecting the political complexion of the two latest bomb attacks in Chicago's primary campaign.

Senator Deneen, on a train for Washington, sent his view of the bombings in the following message to THE TRIBUNE from Cumberland, Md.:

"In my judgment the bombing of my home tonight was the work of the organized and protected criminal classes of Chicago and Cook county in their desperate efforts to retain political control of the city and country."

Trude Assails Crowe.

When news of the bombings was given Judge Trude he recounted statements he had made last night at a political meeting in Berwyn, at which he spoke.

"I told my audience," he said, "that Robert E. Crowe, the state's attorney, is and has been all along the key to the whole crime situation in Chicago, including the bombings. I told them that if Crowe really wanted to clean these things up he could without a question do it and that he is the man responsible."

Crowe Makes Statement.

State's Attorney Crowe, when informed of the bomb explosions, said: "I understand that Senator Charles S. Deneen and Judge Swanson's homes have been bombed tonight. Apparently the Deneen crowd has just started its campaign to elect a discredited county ticket, realizing that they are hopelessly defeated. They are resorting to desperate means to fool the public."

"The same persons who planted these bombs are responsible for the bombings of the homes of Tony Carmack and the Rev. Williams. I personally offer \$10,000 reward for information leading to the arrest and conviction of those guilty of tonight's outrage. I am satisfied if I get that information some of the Deneen leaders will go to the penitentiary."

"On Wednesday morning I shall subpoena before the grand jury of Cook county Messrs. Carmack, Rev. Williams and E. J. Davis and others for the purpose of trying to find out who bombed Deneen's and Swanson's homes."

"The public is not going to be fooled by their dangerous methods of campaign. After having bombed the homes of friends of mine and having made no headway, they are now bombing their own homes in an effort to create the impression that the forces of lawlessness are running the town."

Calls Crowe Statement Poppycock.

"That's plain poppycock," said Judge Swanson when he heard the statement of State's Attorney Crowe. "Why, this was within two seconds of being a direct attempt on my life. The bomb dropped fifty feet away from me, and it is ridiculous to think any of our people would endanger the life of one of our candidates or do anything of this kind to win an election."

"Something ought to be done at once to change the man in the prosecutor's office. He had a law passed at the last session of the legislature preventing the appointment of a special state's attorney who would take immediate charge of the investigation and prosecution."

"I don't know whether Attorney General Carlstrom would come into Chicago and take charge now, as he is pretty busy, but something ought to be done at once."

DAMAGE HOUSE OF U. S. SENATOR; NONE INJURED

Political War Blamed for Attacks.

Bombs of terrific power were exploded last night at the homes of United States Senator Charles S. Deneen, 457 West 61st place, and Circuit Judge John A. Swanson, 7217 Crandon avenue, the Deneen organization candidate for state's attorney. The bomb at the Deneen home was thrown about 11:20 p. m. and at Swanson's five minutes later.

The one at the Swanson residence was apparently tossed with the intention of assassinating the judge. Only a few seconds before it went off he had driven in his car past the spot where the charge was thrown. He was still in his automobile near his garage when he heard the blast.

Political Charges Made.

Charges that political motives lay behind the attacks were made a short time later by Judge Swanson, by State's Attorney Robert E. Crowe, and by Judge Daniel Trude of the Deneen faction.

Judge Trude reiterated a statement made in a political speech to the effect that Mr. Crowe, for failure to curb lawlessness in Chicago, was responsible for these and other bombings. Judge Swanson asserted that it was a move to frighten him out of his race. Prosecutor Crowe retorted that the bombing was done by men of the Deneen forces attempt to gain sympathy.

Suggest Carlstrom.

The possibility of General Carlstrom called in to take investigation and to Street election on April 10th. Judge Swanson suggested that Crowe could best handle the matter. There is a law permit but it is not known whether general would take the matter now.

The bomb at the Deneen tore away the front porch, smashed all the windows, and endangered the lives of Miss Florence Deneen, the senator's sister, who was reading on the second floor, and a maid, Miss Anna Rose, asleep on the third floor. That at the Swanson home broke all the windows and tossed members of the family from their beds. A portion of the roof was torn away, but the heavy brick walls withstood the blast.

Other Places Damaged.

Numerous houses within a block of each of the places subjected to the outrage were damaged. A neighbor of Senator Deneen, who refused to give his name because he feared, he said, that he, too, would be bombed, declared that the concussion was comparable only to an earthquake.

"The whole section was shaken," he asserted. "All our windows were broken and we were aroused from sleep."

Shortly after the blast 200 neighbors of the senator, who left Chicago for Washington at 1 p. m. yesterday, gathered in front of his home. They heard

THE WEATHER

TUESDAY, MARCH 27, 1928.

Sunrise, 5:41; sunset, 6:10; moon sets at 1:30 a. m. on Wednesday. Venus is the morning and Jupiter the evening star.

Chicago and vicinity.—TRI-BUNE BAROMETER.

Fair Tuesday, but some cloudiness; not quite so cold in afternoon; Wednesday increasing cloudiness and somewhat warmer; becoming unsettled by Thursday; rather strong north wind Tuesday.

FLYERS GO A. W. O. L.

BY SIGRID SCHEUTZ.

[Chicago Tribune Press Service.]

(Copyright 1928; By The Chicago Tribune.)

BERLIN, March 26.—Capt. Herman Koehl, chief of the night flight service of the Luftwaffe, Germany's chief aviation company, went A. W. O. L. today. He flew to Baldonnel aerodrome, near Dublin, Ireland, on the first leg of a trans-Atlantic flight to America, in the Junkers single motored ship, Bremen, in which he attempted a similar flight last year. Helped by an east wind, he landed in Ireland three hours earlier than was expected. Now Germany is waiting for the next move and holding its breath, because Capt. Koehl swore he would take off for America the minute the wind was in his favor.

Capt. Koehl was accompanied by the monocoiled, but daredevil Baron E. G. von Huenfeld, North German Lloyd official, and Arthur Spindler, a mechanic. When the authorities refused to permit them to attempt the flight to America, the baron's family bought the airplane in which the flyers took off.

Slag Three, Escape with Chicago Registered Mail

Terre Haute, Ind., March 26.—(AP)—Two masked men held up three employees in the mail room at the Union station here last night and escaped with two bags of registered mail and four bags of other mail. The two, apparently foreigners, escaped. The robbers carried sawed-off shotguns. Two other men walked into the room a short time later and were ordered to put up their hands.

One of the bags of registered mail had just arrived from Chicago.

SQUIRE INSULL PONDERS TRANSIT IN BRITISH HOME

Chance for Thompson-King George Hookup.

BY THE SENATOR.

At this time that Mayor Thompson has been promising to "crack King George on the anvil," it now appears that King George himself has been promising Big Bill's traction policy.

Optical evidence that Thompson takes his orders from Buckingham Palace is a photograph of the lordly manor house which Samuel Insull has set up in his country estate in England, at Windsor, not far from Reading, where a very cheeked English lad he used to go to school.

There is a mansion with modernized plumbing and plenty of bath rooms and up to date heating—"Do it better with gas"—the Chicago utility magnate, known to the villagers as "the squire," has acquired an attractive home dotted with gnarled old oaks.

Enjoys Clubs in London.

Here on his trips to England Squire Insull is able to live in what society describes as "an aura of leisure and luxury," when he is not at his London clubs, of which the English "Who's Who" lists four—the Devonshire, Reform, Royal Automobile, and Guards.

It's within easy motoring distance of Windsor Castle—only a matter of an hour or two to pack a night bag and drop in on the royal family. It's a picture by Thompson's own patent processes of reasoning, it shows a pathway between Chicago's city hall and Windsor castle, where King George sits in his ermine robes with the crown pulled down over his ears these cold March days.

Recalls Political Investments.

A diagram of the road is shown by a cartoon headed "The Deal" which appeared Feb. 15 on the front page of THE TRIBUNE. This cartoon represented a contract and read as follows: "This indenture witnesseth that in consideration of the following payments—"

Samuel Insull to Frank L. Smith, \$125,000
Insull to George F. Harding, 20,000
Insull to Charles R. Francis, 20,000
Insull to Roy O. West, 10,000
Insull to Robert R. Crowe, 5,000
Insull to George E. Brennan, 10,000
Insull to Frank L. Smith, 25,000
Insull to Daniel Schuyler, 2,500

Len Small, party of the first part, agrees to pass the INSULL TRACTION BILL through a special session of the legislature, and the other parties, parties of the second part, agree to support Small for RENOMINATION.

Reproduction of a Tribune cartoon showing "The Deal" between Insull, utility magnate and part time resident of England, and the Thompson gang.

"WM. HALE THOMPSON."

Pays Taxes to King.

Sam Squire Insull pay taxes to King George? Does he? Why, taxes in England are so high that they are more than a great estate and a big owner is standing off the owner and the butcher. And "millionaire Americans" are recognized as the kinglings when they acquire real estate abroad. Back of "The Deal," it may be perceived, King George is the lad who brought Big Bill and Len Small together.

The mayor has said his agreement with the governor was to call a special session to "give Chicago 100 per cent home rule" on transit. King George, of course, would profit to the extent of "The Deal" would give Squire Insull, his new neighbor near Windsor castle, greater ability to pay English taxes, and to purchase more English cars with dollars made in America. King George, naturally, is strong on his "100 per cent home rule" deal, which, it appears, means a percentage by way of taxes, for the royal family's civil list. They're saying, they'll have Bill over there yet for his fall shooting on King George's reserves in Scotland and to ride to hounds with the prince of Wales.

Report Ten Ships Wrecked, Crews Drowned in Storm
MURMANSK, Russia, March 26.—Ten Norwegian whaling vessels were reported to have been wrecked and their crews drowned near Cape Khatanga, in the White sea, as the result of a terrific winter gale and snowstorm. Four other vessels with forty-two men were rescued by four Russian steamers, which responded to calls for help and carried food and clothing to the whaling fleet.

MRS. COOLIDGE RUSHES TO HER DYING MOTHER

Arrives at Northampton After Hurried Trip.

BULLETIN.

Northampton, Mass., March 27, 1 a. m.—Mrs. Grace Coolidge arrived here from Washington at 12:30 a. m. Lieutenant Commander Joel T. Boone, White House physician, went to Mrs. Goodhue's bedside. Mrs. Coolidge had been informed that her mother's condition had shown improvement, but within an hour she was at the bedside.

(Picture on back page.)

Washington, D. C., March 26.—(Special.)—Mrs. Calvin Coolidge left hurriedly this afternoon for Northampton, Mass., where her mother, Mrs. Lemira Goodhue, has suffered a serious relapse.

She was accompanied by her son, John, Lieutenant Commander Joel T. Boone, medical officer of the Mayflower, Mrs. R. B. Hills of Northampton, a schoolgirl friend, and John J. Fitzgerald of the secret service.

Mrs. Coolidge's departure today marked the third time she has gone to Northampton within the last two months. She is prepared to remain there for an indefinite period.

Northampton, Mass., March 26.—(Special.)—Mrs. Calvin Coolidge, rallied late today after a sudden relapse in an illness which had its origin last December. Dr. J. E. Hayes, her physician, who early in the day described her condition as immediately critical, said tonight that she might live several days. At 11:30 tonight Mrs. Goodhue's condition was reported unchanged.

Harbord Here to Plan Gen. Wood Memorial Fund

Maj. Gen. James G. Harbord, national president of the Leonard Wood Memorial association, will arrive in Chicago this morning from New York to confer with Col. A. A. Sprague, chairman, and Melvin A. Traylor, treasurer of the local drive. Chicago's share of the \$2,000,000 trust fund to be used in an effort to wipe out leprosy as a monument to the dead soldier and statesman, will be \$250,000, according to Col. Sprague. Maj. Gen. Harbord was a close personal friend of Gen. Wood.

8 FEET 6, AND STILL GROWING, YOUTH SEES FRIEND, 6 FEET 6, HERE

Clifford M. Thompson, 22 years old, eight and a half feet tall, and still growing, stopped here yesterday, to call on his former neighbor back in Scandinavia, Wis., Alfred Erickson, Chicago attorney, who is himself only two feet less in height.

In Scandinavia Thompson's favorite sport was basketball. But he was so good at it he was ruled out of conference games. The same way with football. He went to Stevens Point normal, earned his bachelor of education degree so he could teach school, but changed his plans when along came a show company with a more remunerative offer.

Beds, doors, and bathtubs are Thompson's pet peeves. "I've got used to cracking my head on doors that I duck when the openings are high enough," he said. "As for beds, I found one in town that is nearly, but not quite, long enough, and bathtubs hopeless."

REPORT \$25,000 LINK SCALPING SUIT IS SETTLED

Sanitary District Trustee Frank J. Link and three co-defendants are reported to have settled out of court the \$25,000 suit brought by Mrs. May P. Roberts, a wealthy widow residing at the Webster hotel, charging them with having defrauded her in a theater ticket scalping syndicate that was the subject of a grand jury investigation in 1924.

The case is still pending before Superior Judge Harry A. Lewis, but has been continued, generally by agreement, inquiry disclosed yesterday.

Other defendants are Mrs. Link, wife of the sanitary district trustee; Mrs. Minnie Plush, a relative of the Links; and Mrs. Maybelle Fuller Douglas, wife of Lieut. Brice Douglas.

MEXICAN TOWNS ARE RAVAGED BY SERIES OF QUAKES

MEXICO CITY, March 26.—(AP)—Dispatches from Pochutla, state of Oaxaca, tonight said that the towns of Pluma Hidalgo, and Xodani have been devastated by a series of earthquakes which have been felt daily in the district since last Wednesday night.

The earth tremors and rocks rolling down the sides of La Sirena mountain destroyed all the hamlets on the slopes of the mountain. Several figures, varying from one to three feet in width, were opened up on the side of the mountain and it is feared that the mountain itself may crumble.

Almost Incredible

A recent inquiry disclosed that a number of people think of Pierce-Arrow as a highly expensive motor car. Many surmise the price to be double that of today's new Pierce-Arrow. And this mistaken belief, in some instances, is all that stands between the individual and Pierce-Arrow ownership.

Interesting measures against any further such misapprehension may be observed at the Pierce-Arrow Spring Salon, now in progress.

Pierce-Arrow Spring Salon

At Pierce-Arrow Showrooms—until March 31st

You will enjoy seeing at this special exhibit the season's modes in motor cars—the latest body designs and newest color combinations—the many delightful appointments that are exclusively Pierce-Arrow.

More important, the occasion reveals that Pierce-Arrow ownership is remarkably easy of attainment. The new line, for example, is priced from \$2900, at Buffalo—with most attractive selling terms.

The Spring Salon ends Saturday, March 31st. Come today as our guest.

Pierce-Arrow Showrooms are open evenings until ten, during this Salon Week

LOWDEN LEADS HOOVER, DAWES IN STRAW VOTES

Tribune Pre-Primary Poll
Tests Chicago.

(Continued from first page.)

presidential possibility received on each side of the city. That follows:

| | Lowden | Hooover | Dawes | Coolidge |
|-------|--------|---------|-------|----------|
| North | 104 | 77 | 104 | 21 |
| West | 104 | 104 | 104 | 49 |
| South | 243 | 271 | 273 | 60 |
| Total | 451 | 452 | 481 | 130 |

By the substitution of percentages which this Tribune has worked out for all of the above figures, it appears that Lowden and Coolidge made the best showing on the west side. Hoover on the south side and Dawes on the north side.

Interpreting the Results.

To illustrate: While only 16.13 per cent of the total votes were cast on the north side, the Vice President received 18.04 per cent of his total from that section of the city. The percentages also show that the President made his worst showing, relatively speaking, on the south side, where the Small-Thompson-Crowe crowd has its largest block of solid votes.

It may be contended that the Small-Thompson-Crowe south side followers have not yet taken a part in the straw vote. This Tribune has given to every ward the exact opportunity of voting to which that ward was entitled by reason of the Republicans who voted at the last primary. Where one ward cast 14,000 Republican votes at the last primary, it has received twice as many straws in the first 20,000 mailed out, as the ward which cast only 7,000 Republican votes in the last primary. Answer to the statement that the colored people did not return ballots in the straw vote appears to be given in the number of straws received from each ward. That table follows:

| Wd. | Rep. | Straws | Wd. | Rep. | Straws |
|-----|------|--------|-----|------|--------|
| 1 | 7 | 14 | 27 | 14 | 6 |
| 2 | 10 | 9 | 28 | 10 | 7 |
| 3 | 16 | 24 | 29 | 10 | 18 |
| 4 | 28 | 16 | 30 | 10 | 15 |
| 5 | 32 | 22 | 31 | 6 | 1 |
| 6 | 41 | 43 | 32 | 6 | 1 |
| 7 | 28 | 10 | 33 | 4 | 6 |
| 8 | 38 | 17 | 34 | 6 | 7 |
| 9 | 18 | 11 | 35 | 8 | 10 |
| 10 | 8 | 7 | 36 | 18 | 9 |
| 11 | 7 | 3 | 37 | 10 | 13 |
| 12 | 10 | 10 | 38 | 17 | 8 |
| 13 | 3 | 1 | 39 | 7 | 8 |
| 14 | 4 | 0 | 40 | 11 | 12 |
| 15 | 18 | 10 | 41 | 7 | 0 |
| 16 | 9 | 7 | 42 | 13 | 7 |
| 17 | 28 | 18 | 43 | 24 | 8 |
| 18 | 10 | 10 | 44 | 6 | 8 |
| 19 | 17 | 16 | 45 | 9 | 10 |
| 20 | 3 | 7 | 46 | 7 | 5 |
| 21 | 4 | 3 | 47 | 5 | 11 |
| 22 | 5 | 2 | 48 | 11 | 10 |
| 23 | 6 | 8 | 49 | 10 | 16 |
| 24 | 20 | 13 | 50 | 16 | 12 |
| 25 | 5 | 4 | 51 | 10 | 12 |
| 26 | 4 | 4 | 52 | 10 | 13 |

It is hoped by tomorrow that straws on the candidates for governor, states attorney, or United States senator, or perhaps two of them, will be tabulated so they may be published. So far as the tabulation has proceeded, the straws for governor are strangely unlike those for president, presented today.

1,874,050 OUT OF WORK IN U. S., DAVIS REPORTS

Serious, but Relief Is
Near, He Says.

(Chicago Tribune From Service.)

Washington, D. C., March 26.—(Special.)—Unemployment, while not as extensive as represented in some quarters, is serious, Secretary of Labor James J. Davis reported to the senate today.

The number actually employed at wages or salaries in January was 1,874,050 less than in 1925, said Secretary Davis, quoting the estimate of Ethelbert Stewart, his commissioner of labor.

Secretary Davis transmitted his report in response to a resolution recently adopted on the motion of Senator Wagner (Dem., N. Y.). The number listed as unemployed is less than half the 4,000,000 estimate mentioned during the senate debate on the Wagner resolution.

Secretary Davis attached to his mes-

sage data compiled by Commissioner Stewart.

"The volume of employment as shown by the reports of the bureau of labor statistics, published monthly, has tended downward from April, 1927, up to and including January, 1928," said Secretary Davis. "The February report, just published, shows an upward trend."

"The present slump in employment, while not so extensive or grave as the estimates which have been generally circulated, is nevertheless serious."

"The facts which have brought it about are many: Among them, the floods in the Mississippi valley, and in New England; the Florida tornado, its attendant losses, the temporary closing of certain industrial plants, and a disturbance in the bituminous coal fields which has lasted for many months."

Secretary Davis said that prompt relief for unemployed labor temporarily out of work is due from the government's elaborate building program, from similar programs of states, municipalities and counties, and from private building and construction. As to those displaced by changes in industrial and commercial methods, Secretary Davis said that reports to the department indicate that "this mechanical development will probably proceed as rapidly in the immediate future as in the past."

BRAWL BLAMED FOR KILLING, 2 ARE ARRESTED

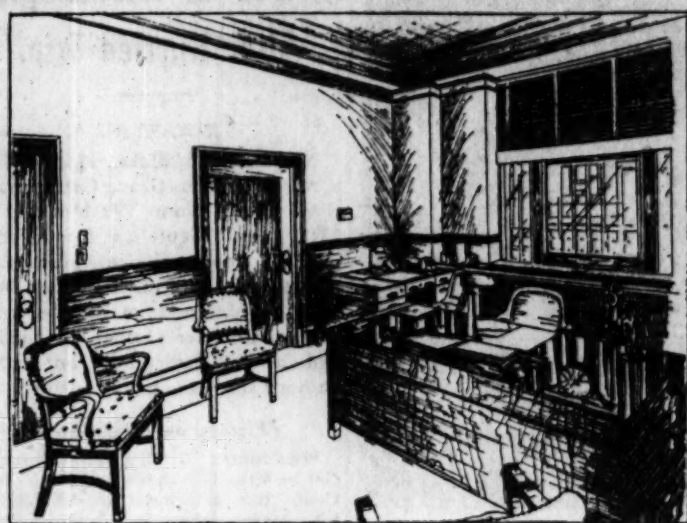

(Picture on back page.)

Thomas F. Hawkins, 36, of 916 West 64th place, whose body was found yesterday morning in front of 4038 Emerald avenue, is believed by the police to have been beaten to death during a brawl Sunday night.

From Anton Melcarek, owner of a

saloon at 1035 West 51st street, it was learned that Hawkins, who was an engineer for the Chicago and North Western railroad, had been in his place with Edward Doyle, 3538 West 63d street, and Edward Dooley, 915 West 64th street.

Both Doyle and Dooley were taken into custody. Doyle asserted that he had left the others early. Dooley declared that he had been too intoxicated to remember what had happened, but the police found that his face was bruised and clothing bloody.

ONE OF THE EXECUTIVE OFFICES, FEDERAL RESERVE BANK, KANSAS CITY—ALL NEWTON & HOIT FURNITURE

Newton & Hoyt have something definite and concrete in quality, service and price the office furniture buyer cannot obtain elsewhere.

We do a nation-wide wholesale contract business with Court Houses, City Halls, Government Buildings, Banks, Public Libraries, Hotels, etc., that gives us the necessary volume and skilled organization to enable us to offer the Chicago buyer:

1st. **QUALITY**—We have our own designers and not only design our furniture but dictate the material and construction that go into it.

2nd. **SERVICE**—We carry large stocks and make very prompt deliveries. We "follow through" and see that the furniture delivered meets the customer's conditions and his approval. While seldom anything goes wrong with Newton & Hoyt furniture, we promptly meet any complaints and make good any defects that may develop.

3rd. **PRICE**—Our wholesale business, together with our extremely low operating cost, enables us to give values that cannot be duplicated elsewhere. Newton & Hoyt furniture stands up and gives satisfactory service year after year with no repair bills.

Our location at 223 South Wabash avenue, just south of Adams street, is most convenient. Come in and see our extensive lines and let us help you with your furnishing problems, or telephone Harrison 8960 for a salesman to call.

Ready and fit
for the day's business

Chicago & North Western's
Suburban passengers are
not all tired out before they
start the business day.

They start it with a smile—and
arrive fresh and eager for its
tasks and problems.

All distances within "North
Western's" suburban
traffic zones can be
reckoned by minutes.
Its many swift, roller-

bearing trains bridge the mileage
gap, comfortably.

No morning and evening "rush
hour" jostling and pushing to
annoy or inconvenience you.
While it is true that as many as
30,000 suburban passengers are
loaded and transported from the
Madison Street Terminal within
a forty-five minute
period—there is no
crowding. Everybody
has a comfortable seat.

The Chicago Tribune's GAME of "SONG TITLES"

617 Big Cash Prizes for Best Answers

No. 32. The Chicago Tribune's Game of "SONG TITLES"

CLUE: Looks like a lesson in palmaristry. Note the broken "life line" and the ridges and valleys—all indicative of something if you know how to read them.

The Name of This Song Is _____
(Write Song Title Here)
My Name Is _____
Street Address _____
City _____ State _____

THE RULES:

- Every weekday for 40 consecutive days, (not including Sundays) the Chicago Daily Tribune will print a cartoon picture representing the name of a popular and well known song or an old favorite melody. The public is invited to cut out these cartoons and name the songs the pictures represent.
- The Chicago Tribune will pay \$5,000.00 in cash prizes to the persons sending in the nearest correctly named and nearest complete sets of pictures as follows: 1st Prize, \$1,000.00; 2nd Prize, \$500.00; 3rd Prize, \$100.00; next 4 Prizes (\$25.00 each); \$100.00; next 100 Prizes (\$10.00 each); \$1,000.00; next 510 Prizes (\$5.00 each) \$2,550.00. A total of 617 Prizes, totaling \$5,000.00.
- This game is open to everyone, everywhere—men, women, boys and girls—except employees of The Chicago Tribune and their families. It does not matter where you live.
- You pay nothing. Just prove your skill. Accuracy will count. Neatness will count. Song titles are to be submitted only in complete sets. Hold all pictures until you have the complete set of 40. Then send them to "Song Titles," The Chicago Tribune, Post Office Box 1339, Chicago, Ill. All entries must be in by midnight 15 days after Picture No. 40 has been printed.
- Each entry must be sent in by first class mail—postage prepaid. Entries with insufficient postage will be returned by the Post Office Department. At the end of the contest we want you to tell us the name of your favorite song—the one you like best of all—and why. Contestants may send in as many sets of Song Titles as they wish, but no contestant will be entitled to more than one prize.
- You need not purchase the Chicago Daily Tribune to compete. You may copy or trace the cartoon pictures from the original and use the copies you have made. The Chicago Tribune may be examined at any of its offices or at public libraries free of charge.
- The judges will be a committee appointed by The Chicago Tribune. Their decision will be final. In case of ties a duplicate award will be paid to each tying contestant.

The Name of the Song Represented by the Picture is in this List.

"Hand of You"
"Counting the Days"
"Down Among the Sheltering Palms"
"Pearly Gates, Pearly Gates"
"The Last Chord"
"How Can I Forget"
"The Weeping of the Reed"
"John Brown's Body"
"Remember"
"Slide by Slide"
"It All Belongs to Me"
"If We Were Three"
"Bringing Apple"
"If You Were Here"
"Get Up, Get Up"
"First Hand"

Tune in W-G-N
Every evening W-G-N broadcasts the music of the song pictured in the next morning's Tribune. Hearing the melody may help you name the song. Tune in W-G-N.

HONEST AS ANY OF CANDIDATES," COL. SMITH SAYS

Speaks to Loop Crowd;
Mayor, Dailey There.

BY JAMES DOHERTY.

"As pure, upright, and honest as any candidate for the senate," said Frank L. Smith, former United States senator, now senator designate, and also candidate for the senate, at a meeting yesterday in the People's theater. "I'm no superman, but I have as much virtue as those who traduce me."

This was Col. Smith's first public appearance in the present campaign for the office to which he was first elected, then appointed by Gov. Small, and finally reappointed by Gov. Small after the senate had refused to let him take his oath or seat. The speaker was filed.

Mayor Thompson was there, poking "King George's snoot," denouncing the Tribune, lauding Gov. Small, and State's Attorney Crowe, eulogizing President Coolidge, and asking that the hick farmer knows about Chicago transit.

Dailey Denounces Carlstrom.

Col. Smith was applauded and State Senator John Dailey was given a big hand when he said his opponent, Attorney General Oscar E. Carlstrom, had given me his sacred word of honor as a man that under no circumstances would he be a candidate against the attorney general. Mr. Dailey said he admired the governor and had voted Mayor Thompson while Attorney General Carlstrom now is "showing his maliciousness against this great American."

"I am for Len Small, because his principles prove him to be close to the people," Col. Smith declared. "I am for Mayor Thompson and his 'America First' principles, which may be said at by some, but which ring true."

"I have come back to you to see if you are going to stand for the dictum of the United States senate. Gov. Small is a master road builder; Thompson is known as the builder, and I want to build the people's highways to Washington, D. C."

Then Mayor Enters.

Here he was interrupted by the appearance on the stage of three Spanish musicians singing "America First" and the entrance of Mayor Thompson to the platform.

"I want the last spikes of that highway to be golden ones," Col. Smith roared, "and they will be those most beautiful words: 'This is a government of the people for the people and by the people. It shall continue so as long as it is a republic.'"

"I was proud when I presented my credentials to the senate, but one of the most distinguished Democrats thrust me this message: 'Get come down here because we will give you your seat.'"

"They talked of campaign contributions. I'm wondering if they could get a person to do business in the senate if their contributions were known to people."

"That was an instance of senatorial duplicity and it may have been done by the great Democratic party could

come into power at the next election. "I was working against what they were working for. I was against the league of nations and the world court and Illinois played a wonderful part in that fight. I do not know if those favoring the court used influence to keep me out of the senate."

"There was no comment on the expenditure of money in the campaign until the Tribune brought in a third candidate who is costing the people three-quarters of a million dollars today because ballots must be printed for the Independent Republican party. But I haven't run up the back steps of the Tribune and I want my rights."

"I want to be honored and respected as a member of the senate and I'm as pure, and upright and honest as any candidate for the senate."

Won't Beg to Enter.

"I'll not go to the senate with my hat in hand asking if I can be a member of that exclusive club."

"I'll go there as the ambassador of the people of the state of Illinois, and there'll not be the slightest question against my credentials being honored."

"Do you want me to go there? Then vote for me. I'll not be bullied. The question is, shall a dynasty be set up in the United States to say what form of government we'll have."

Gov. Small did not attend yesterday's meeting, but he is expected to be in Chicago today and Thompson, Small, and Smith will be campaigning together.

The Girl's Camp

To keep the roses in her cheeks, the sparkle in her eyes, the laughter on her lips, discerning parents wisely encourage a summer at camp. Are you considering this great experience with its joys and benefits for your daughter?

Private schools, colleges and camps of unquestioned standing advertise in *Harpers Magazine* April issue out today. Write our School Bureau for helpful information and for free copy of Mrs. Blair's article, "Why I Sent My Children Away to School."

ELLER ACCUSED OF DUMMY TRICK IN PRIMARY RACE

Morris Eller, boss of the 20th ward, where many elections have been featured by charges of vote frauds and violence, has jockeyed for a double advantage in his struggle for a controlling voice in the affairs of the Sanitary District of Chicago. It was charged yesterday by Howard W. Elmore, foremost opponent of Eller in the race for Republican nomination for sanitary trustee.

Not content with having the names of himself and his two associate Thompson-Crowe candidates, Oscar F. Nelson and William S. Finucane, at the head of the ballot, Eller has maneuvered to put a dummy candidate at the tail end, Mr. Elmore charged.

In the business of striving for strate-

gic places on the ballot, political experts put the top of the ballot as of prime value, and the end of the ballot as the next best. Candidates at the end of a list may campaign widely among their friends with the simple formula, "Vote for the last name on the ballot."

Eller, Nelson and Finucane had obtained the first three places in the sanitary trustee column. Three nominations are to be made. The Deneen candidate's petitions, those of Elmore, John H. Glenn and Edwin R. Wright, were filed shortly before midnight on Feb. 20, which was the statutory deadline.

At one minute to twelve the petition of James J. Smith was filed, cheating the Deneenites out of last place. An investigation of Smith was begun. At the address he had given, 5506 Kimbark avenue, it was stated Smith was a roomer there, and had not lived there long. He had not voted in the precinct for at least two years.

Then the petition was closely scanned, with the result, as charged by Mr. Elmore, that the gatherings of the names on the petition were shown to be almost entirely composed of men of the 20th ward Eller organization. More than ten sheets of names were

gathered, according to the signature attached to them, by Samuel S. Epstein. A physician by that name is a deputy coroner, appointed through the influence of Morris Eller.

Another gathering of names for Smith was Frank Morrison, secretary of Eller's 20th Ward Republican club. Out of 46 persons who circulated Smith's petition, 31 were from the 20th ward, the records show.

The candidates for Republican nominations as sanitary trustees will appear on the ballot as follows:

Oscar F. Nelson, C.T.,
Morris Eller, C.T.,
William S. Finucane, C.T.,
Charles A. Warner,
Edwin Howard West,
Ernest Siebold,
William F. Cleff,
William J. Healy,
John H. Glenn, D.,
Howard W. Elmore, D.,
Edwin R. Wright, D.,
James J. Smith.

The names in black face type are the candidates of the Crowe-Thompson organization, designated C.T., and the Deneen candidates are marked with a D.

Sign Boards Are Removed from Forest Preserves

All sign boards in the forest preserves had been removed yesterday noon, it was reported by General Superintendent M. S. Szymczak, who had ordered the bill board companies to take down their political and commercial advertisements that were a blot on the beauty of the woods. The companies, who were given privileges in return for erecting boards pointing out facilities in the preserves, are expected to petition the county commissioners for compensation. President Anton J. Cermak said they had abused their privileges.

COUNTY TO GUARD CIGERO POLLS IN FIGHT ON KLENHA

Coalition Workers Tell of Death Threats.

Cicero, long under the rule of Joseph J. Klenha as village president, is asked by a coalition of Democrats and Deane Republicans to terminate the Klenha rule at the village election on April 2.

A committee of the coalition candidates yesterday visited County Judge Edmund K. Jarecki and asked him for protection against gunmen, kidnapers, and vote thieves, which they declared made a mockery and a disgrace of the election four years ago.

Judge Promises Protection.
Judge Jarecki promised he would send deputy sheriffs into Cicero next Tuesday to guarantee orderly election, and also declared he would appoint many official watchers at the request of the coalition forces. Frank J. Broz, candidate for president opposing Klenha, and Gustav O. Handa, coalition candidate for village trustee, told Judge Jarecki threats of kidnapping and death already had been received by their workers.

In a statement issued last night by Mr. Broz on behalf of the coalition candidates, it was declared that "all we ask is a chance to get our voters to the polls and have the ballots honestly counted."

Expect Ballot to Triumph.
"We are not expecting any recurrence of the scenes that marked the last town election four years ago," the statement read. "We are satisfied that the board of election commissioners is capable of such action as may be needed to safeguard the voters. We shall not be armed or plan for any reprisals no matter what is done against us."

"We believe that the ballot is mightier than the bullet. It is true that threats of death have been made. But we look to the established organizations of law and order to see that force does not triumph."

Specialties that tempt the taste

are among the features that differentiate the evening meal at Leighton's from every table d'hôte dinner in town. Every course of the entire seven is of generous proportions. And each is so skillfully planned and prepared by the Leighton's chef that even light eaters find it a pleasure to indulge heartily here. People you like to be near are the patrons. DR. PRICE'S VANILLA

Democrats Urge Big Primary Vote as Aid to Al Smith

"Every vote for Democratic primary candidates is a vote for Al Smith for President," is the slogan hung up at Democratic county headquarters last night in opening a drive for pledge cards.

George E. Brennan, who has been in the hospital recovering from an operation, appeared on the scene for a few hours and the Democratic campaign took on an air of briskness. With no big fights at the primaries the organization has rather lagged due to a superabundance of harmony, but Martin J. O'Brien, county chairman, is now throwing it into high gear for Al Smith.

The pledge cards, which went out 200 to a precinct, will be the basis of a house to house canvass by the workers. The purpose is to keep all Democrats in line and to sign them up to support the entire Democratic ticket and to work to bring out a record vote at the primaries April 10.

National, State, County Issues.
Unemployment, the oil scandals, and higher taxes are items stressed on the

FIREMAN INJURED AS AUTO AND HIS TRUCK COLLIDE
Lieut. John J. Doyle, 59 years old, of Fire Engine Company No. 50, suffered broken wrists and possible internal injuries in a collision yesterday between his apparatus and an automobile at Logan boulevard and North Fairfield avenue. John Borcia, 29, of 958 North Hamlin avenue, driver of the private car, received lacerations of the scalp. He was arrested for reckless driving.

One death during the day raised Cook county's 1928 motor toll to 218. Oscar Strom, 42, of 4539 Lincoln avenue, died from injuries received Sunday when he was struck by an automobile operated by Raymond Dickover, 2222 Wilson avenue, at Lincoln and Wilson avenues.

cards as national issues. The state issue is styled "Turn the rascals out of the statehouse." On the county issue it emphasizes the "pineapple crop."

The epitomized statement of the platform, as approved by Mr. Brennan and the ward committeemen, reads: "Vote for Al Smith for President. Great American, able public servant. Independent, and tolerant in thought and action."

"The Democratic organization of Cook county is bound by every consideration to effect the nomination of Gov. Smith. Such nomination will be the first and essential step of a nationwide Democratic victory. Let's give Al Smith a chance to restore the balance of decency and order in government and also restore national prosperity by sending him to the White House."

"Rebuke in Chicago."
"And do not overlook our outlook in Chicago and the State of Illinois. The people of Illinois are offered an opportunity to elect as governor a young, able man, who will put an end to the eight years of scandal, shame, and opprobrium. Likewise, they may rebuke those who are responsible for the intolerable conditions of vice, violence, and crime which have created a veritable reign of terror in Chicago."

Made from the world's finest mustard seeds
GULDEN'S Mustard

POLITICAL HAT PASSING AMONG ETTELSON'S MEN

Collectors for the Thompson organization got under way yesterday with a solicitation of city hall employees for campaign contributions.

Word went out at the office of Corporation Counsel Samuel A. Ettelson that each appointed jobholder is expected to pay five per cent of his annual salary.

Leonard Ettelson, brother and assistant of the corporation counsel, is the official plate passer in the law department, the boys were notified. They also were requested to pay only in cash.

Easter Is Near, Too.
"Pretty tough," complained one of

the \$2,400 a year attorneys whose assessment was \$120. "I get my pay check tomorrow and I expected to buy my wife some Easter clothes, but I guess she'll have to wear the old dress to church this year."

He declared that the drive for campaign donations is the first to be staged in the law department since the previous administration of Mayor Thompson.

One or two of the few Democratic and Deane partisans who are in the corporation counsel's office raised a row about the five per cent tax. It was said, on the ground that they also had to kick in for the other side. Rumor had it that these were charged only three per cent as a compromise.

Figures Hard to Get.
Although figures on the law department's finances are somewhat hazy since Mr. Ettelson clamped a padlock

on his "expert" pay rolls, conservative estimates were that \$10,000 to \$20,000 would be turned over to the campaign managers from that department alone.

Complaints of many of the jobholders, especially in the law department, are intensified by the fact that they have been hit twice before. Nearly all of them handed over \$10 to "The America First Foundation" and more of them \$100 to the William Hale Thompson Booster club last fall.

TRIES TO END OWN LIFE.
Dependent after two years of illness, George Foster, 71, of 5126 South Sawyer avenue, yesterday attempted to commit suicide by shooting himself. He is expected to die at the county hospital.

CAREFUL DRIVING reduced

his insurance cost

How and why you can cut \$10 to \$35 from your insurance bill for 1928

THIS is a message to the thousands who operate their cars for years with few insurance losses. To such it offers the full benefits of preferred risk insurance classification.

Coverages standard with the best written by other established companies are made available to you at substantial reductions in rate.

Claim adjustment service is speeded, made more liberal.

The full cost details for your car will be sent you upon receipt of coupon below.

How Such Savings Possible

At Chicago Lloyds only the responsible "low loss" segment of the motoring public is insured. This is sound insurance practice, used in fire and life insurance for many years.

A common sense method determines your eligibility. Your driving record over a period of years, plus your personal responsibility, are the factors considered.

Rates at Chicago Lloyds are fixed by the average of losses among this preferred class of drivers only.

These rates are lower, by many dollars per year, than those needed to protect reckless and careful alike.

A Successful Insurance Organization
Distinctly of Chicago

Over four hundred underwriters prominent in the business and financial life of Chicago and the middle west comprise Chicago Lloyds. It is licensed under the new and rigid Illinois law governing Lloyd's. Assets available for claim settlement are well over \$2,000,000.

Lloyds is a generic name. Chicago Lloyds has no connection with any other organization using the word Lloyds, except for reinsurance facilities maintained with Lloyd's, London.

While insurance is on your mind tear out and mail the coupon below. It will go direct to the Home Office of Chicago Lloyds. You will receive a detailed insurance cost estimate figured at these lower rates.

A copy of our new manual of driving practice, "The Careful Driver's Handbook" will also be sent you. In this are route maps and touring data, excerpts from the motoring law and code of traffic regulations, and other useful information.

Both quotation and manual are sent without obligation or cost to you. Mail coupon today.

Chicago Lloyds comprises over Four Hundred Underwriters of prominence in the business and financial life of Chicago and the Middle West, under the management of

FOES OPEN FIRE ON CROWE; GET SWIFT COMEBACK

Fight on State's Attorney Enlivens Campaign.

BY ARTHUR EVANS.

A passage at arms over "Judges in politics" and the state's attorneyship, between the Deneenites and the Crowe-Galpinites enlivened last night's campaigning of the Republican factions.

State's Attorney Robert E. Crowe, taking up reproaches from the Deneen camp of "play politics," declared precedents were established by Senator Charles S. Deneen, who years ago "as state's attorney built up a machine" which made him governor in 1904.

Judge Daniel P. Trude at Berwyn St. E. church led the attack of the Deneen group.

Attacks Prosecution Record.

"A survey of the Supreme court reports," Judge Trude said, "shows that 131 cases have been affirmed and 97 reversed in the eight years of Mr. Crowe's administration. The reversals include 'Biddy the Immune,' Fred Meier, Milton G. Severinghaus, Bogolowski, Pernekes, and Scott cases."

"If you had a law office whose operation cost more than a million a year and 150 assistants and was unable to get more than 57 1/2 per cent of convictions, would you be willing to renew the contract of the operating head of that law department for four years more?"

"Would you continue a man in office who permitted 42 1/2 per cent of the cases to be reversed after the judges and juries had done their part? The inefficiency of the state's attorneys in properly presenting the law in these cases, thereby permitting error to get into the record, is mainly responsible for these reversals."

According to the tabulation of verdicts of murders returned by coroner's juries in Cook county, there were 184 murders in 1920, 190 in 1921, and an increasing number until 1925 when there were 394; in 1926, 366, and in 1927, 379. A murder a day keeps the visitor away."

The State's Attorney's Reply.

State's Attorney Crowe's contribution of the type termed "short and snappy."

"I thought," said Mr. Crowe, "that Senator Deneen, Judge Trude and the

POLITICAL NOTES

Attorney General Oscar E. Carlson, Republican candidate for re-nomination, was notified yesterday of an endorsement by the regular Republican organization of the second commissioners' district of Cook county. That is the district of which William H. Weber, Thompson-Crowe member of the board of review, is district committeeman. Other prominent Republicans concurring in the endorsement are Gene G. Oliver, member of the board of assessors who lives in Chicago Heights, and Mayor Paul Kneek of Blue Island.

Secretary of State Louis L. Emmerson, Republican candidate for governor, Attorney General Carlson and the U. S. senate, start their Cook county speaking campaign today. They have two night meetings, one at 1206 East 43d street, in the Eighth ward, and the other at 2325 South State street, in the second ward.

Justice Floyd E. Thompson of the

Supreme court, Democratic candidate for governor, is billed to attend ward meetings in Chicago Wednesday, Thursday, and Friday.

The West Division Street Business Men's association has endorsed the candidacy of Edward M. Overland for reelection as representative in the Twenty-third senatorial district.

Judge Philip J. Fitzgerald of the Municipal court was endorsed for reelection yesterday by Joint council No. 25 of the International Brotherhood of Teamsters, Chauffeurs, Stablemen, and Helpers, with a membership of 40,000 in Chicago.

Congressman Fred Britten is booked to return from Washington to speak at a meeting in Prudential hall, April 3, in behalf of Henry P. Runkle for Republican committeeman of the Forty-third ward. There is a three-cornered battle in this ward, with Alderman Titus Hafra and former Alderman Arthur Albert in their usual clash.

Better Government association said the judges ought to keep out of politics. They not only want to keep the judges out of politics but want to take the state's attorney's office out of politics. Deneen as state's attorney built up the Deneen machine.

The three candidates they have run against me have all been judges—Matchett, Holmes and Swanson—and their principal orator and mudslinger, Trude, has done nothing but play politics for the last two years. I will admit that he has played it very effectively, however.

"He is setting a bad example to the twenty-one Superior and Circuit court judges, Democrats and Republicans—including Deneen judges—who have commended my administration."

Liberals Endorse Crowe. The People's Beer and Wine league, the motor of which is, "We believe in temperance, not prohibition," endorsed Mr. Crowe during the evening. It declares that to bring back light

wine and beers would reduce crime 50 per cent.

"In six years," it said, "there has been an increase from 5,723 to 22,023 commitments to the reformatory. This enormous increase shows there has been no laxity in law enforcement in Cook county. Your record as state's attorney deserves the highest praise of the better element. Your opponent is endorsed by that small minority that believes in invading homes without due process of law. It behooves

the constructive element of Cook county to stand four square for a state's attorney who by his record has proved he will not violate one law to enforce another, but who believes in the constitution and the bill of rights."

Litigator Challenges Baras.

Edward R. Litinger, Deneen-Emmerson candidate for re-nomination for the board of review, in an open letter last night challenged his opponent, Bernard P. Baras, of the Thompson-Crowe slate, to make public "how much money you have been paid from public funds."

"Why the mystery concerning these fees of yours?" wrote Mr. Litinger. "What kind of work do you do for the city? Why are you ashamed to tell the people if you are rendering services worth the \$100 a day I am informed you receive?"

"Why don't you tell the taxpayers? Is it because the amount is so large or because you are on a padded payroll that will not stand the light of day and which credits you with working Sundays, holidays and for protracted periods such as last summer when you were touring the west with Bill Thompson singing 'America First'?"

Dartmouth Magazine Cited as Immoral; Editors Quit

Hanover, N. H., March 26.—(AP)—Two editors of the Tower, literary magazine of Dartmouth college, resigned today after an unsuccessful attempt to convince authorities that three articles in the publication did not conflict with the state laws on immoral literature. The editors are William A. Hunt of West Hartford, Conn., and Paul McClean of Helena, Mont.

ACCOUNTS SHORT, SLAYS WIFE, 3 CHILDREN, SELF

Lowden, Ia., March 26.—(AP)—Suspended from his position as postmaster of Lowden by the postal department at Washington because of shortage in his accounts, Lumber Meier, 30, today killed his wife and three small children and himself.

The bodies of the family were found this morning by his father, Fred Meier, after Meier failed to appear at the local postoffice. An army automatic, six of its eight cartridges discharged, was found clutched in the dead man's hand. He had a bullet hole in his temple. A flashlight was burning at the head of his bed.

No note of explanation was found by county officials who were called from Tipton. Two notes were left by Meier, both directing the finders to safety deposit box keys, but neither giving any reason for the act.

This morning, however, Mayor Alfred Mensing received notice from the postoffice department that he had

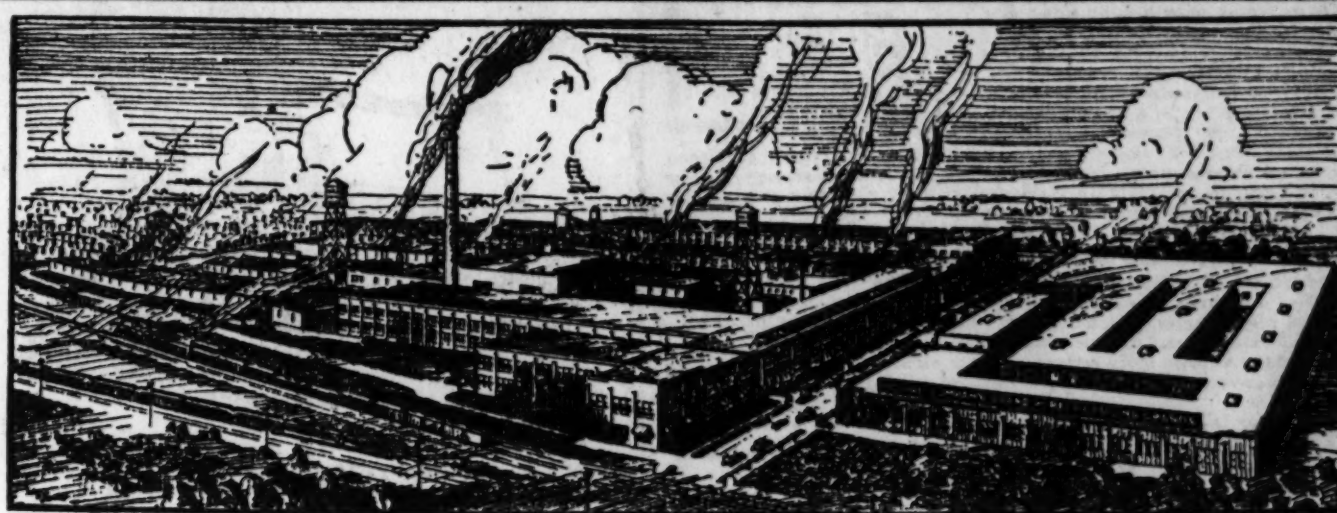

been appointed acting postmaster. The postal department at Washington announced that a small shortage, had been discovered in Meier's accounts.

The tragedy followed a Sunday during which Meier appeared in good spirits, and during which he took his wife and children automobile riding.

In an adjoining bedroom were the bodies of the other two children, Alice, 7, and Joan, 3. Alice had been shot twice and her skull was crushed.

Adele St. John and Hyland, Football Star, Wed Today

Los Angeles, Cal., March 26.—(Special.)—Adele Rogers St. John, novelist, and Richard Hyland, who played half back on last autumn's Stanford university football eleven, are to be married at Santa Barbara tomorrow afternoon. Mrs. St. John resented her final divorce decree from Ivan St. John, magazine writer, last week.

Buy with Rent Money One of these Beautiful Houses

6-Room
Pressed Brick
Homes

\$6,950

Terms: \$500 Down
\$59 a Month
Including Interest

[Lots 60x150 Feet Included in Above Price]

These beautiful homes are located on four lines of transportation, with express service to Loop, low monthly fare, in restricted communities of Greater Chicago, convenient to good schools, stores, churches, and all modern conveniences.

Build Now—Before Prices Rise

If you do not have the full down payment in cash now, pay in any amount you have and the balance you may pay in small amounts monthly.

Statistical figures show that there will be a 25% or more expense added to building costs before another year. Get one of these houses today, therefore, while the price is within your reach and terms are easy. If you wish a smaller house or a larger one, we have other houses at different prices. Don't forget, all of the houses are of utmost utility and rare beauty. Nothing in a 6-room pressed brick house that we have ever built approaches this one in price, value and looks. This is something unusual; therefore, you should take advantage of this offering today.

Mail in the coupon at once to this old, responsible house that is standardizing high grade homes to fit every pocketbook. No obligation. We have put thousands of people in their own homes and have started many on the road to fortune—and we can do the same for you. Mail the coupon now.

Arthur T. McIntosh & Co.
160 N. La Salle Street Telephone: State 3783

Specifications

Complete houses, modern in every particular. The above picture is an actual reproduction of one of these houses. Each house is a story and a half in height with long, beautiful sloping roof. Pressed or skinned brick (according to your selection) all around—solid brick walls, poured concrete foundation and concrete floors, seven-foot basement, steel construction, 2-part laundry tubs, hot water heater. Guaranteed heating system. Porcelain sink in kitchen—tile floor in bathroom, with built-in tub, porcelain lavatory. All modern plumbing. Hardwood floors throughout. Beautiful modern electric fixtures of your own selection with crystal glass drop and wall lights. All rooms decorated to your own taste. High quality window shades of your own selection. Interior trim of silver gray, walnut, mahogany, enamel or natural finish. Plaster arches. Wall radiators. Flower vases and screens for doors and windows. Plenty of closet space. Built-in ironing boards, built-in kitchen cabinets, cement walks, front and rear. Porch lanterns. Best make hardware. Three large bedrooms—two 12x13 feet. Rock lath with 3 coats of plaster. Color scheme inside and out of your own selection.

MISSOURI G. O. P. O. K.'S LOWDEN; FOES WIN POINT

Balk Delegation Instructed for Illinoisian.

St. Joseph, Mo., March 26.—(AP)—A resolution endorsing Frank O. Lowden, former governor of Illinois, for the Republican presidential nomination was adopted by oral vote at the Republican state convention tonight.

The action followed a fight on the floor in which the Hoover faction sought to put through an amendment striking out Lowden's name. The amendment was defeated by a roll call vote of 146 to 322.

While the Missouri delegation was not instructed for Lowden, the resolution was regarded as morally binding the delegates to Lowden as long as he remained before the convention as a candidate.

Delegates Uninstructed.
Supporters of an instructed delegation for Lowden recoiled from their stand when opposition caused a deadlock in the resolutions committee. The Lowden endorsement was finally approved by the committee by a vote of 11 to 2.

Seven delegates at large were chosen, headed by Gov. Sam A. Baker and former Gov. Arthur M. Hyde.

The convention also adopted a resolution declaring the "great rank and file of the Republicans of the United States resent the acts of those in high places who have been traitors to the public trust and it is with just as bitter resentment we challenge the attacks of the Democrats upon our pure and patriotic."

President Coolidge and the department of justice were commended for their "untiring efforts to eliminate and punish those guilty of misconduct."

The farming industry must be included in the "national program of protection of the whole structure falls" another resolution declared.

Row Over Shipstead.
St. Paul, Minn., March 26.—(AP)—A stern rebuke from the chair today balked an effort to force United States Senator Henrik Shipstead to notify the Minnesota Farmer-Labor convention as to whether he will file for reelection on the party ticket.

"The motion's out of order—that's Republican propaganda," shouted Chairman William E. McEwen of Duluth, as he banged his gavel following a motion by Emil Youngdahl of Minneapolis to wire the senator as to his plans.

Chairman McEwen ordered the convention adjourned until tomorrow.

His Indorsement Certain.
The indorsement of the Minnesota senator was considered certain with seven of the ten members of the nominating committee purporting Shipstead men. The convention will consider the report of the nominating committee tomorrow.

Lady Bailey Given Permit to Continue Desert Flight

CAIRO, Egypt, March 26.—(AP)—Lady Bailey, British aviatrix, who was stopped in Egypt while on a solo flight from England to Cape Town because the authorities of the Sudan would not permit her to fly alone over that dangerous territory, has been granted permission to resume her trip.

It is understood that she has accepted the escort of Lieut. R. R. Bentley of the South African air force, who recently flew over the Sudan as an escort to Lady Heath. Lady Bailey will start for Khartum tomorrow.

THREE BOB DREEM SHOP.
Three men broke a window in the dress shop of Grace Adair, at 1228 Montrose avenue, early yesterday, stealing \$500 worth of clothes.

Arizona Delegates Not Instructed; Favor Smith
Phoenix, Ariz., March 26.—(AP)—Arizona Democrats, through the state central committee, today named as representatives to the national Democratic convention twelve delegates, uninstructed, but avowedly favorable to the candidacy of Gov. Smith of New York.

Row Over Shipstead.
St. Paul, Minn., March 26.—(AP)—A stern rebuke from the chair today balked an effort to force United States Senator Henrik Shipstead to notify the Minnesota Farmer-Labor convention as to whether he will file for reelection on the party ticket.

"The motion's out of order—that's Republican propaganda," shouted Chairman William E. McEwen of Duluth, as he banged his gavel following a motion by Emil Youngdahl of Minneapolis to wire the senator as to his plans.

Chairman McEwen ordered the convention adjourned until tomorrow.

His Indorsement Certain.
The indorsement of the Minnesota senator was considered certain with seven of the ten members of the nominating committee purporting Shipstead men. The convention will consider the report of the nominating committee tomorrow.

Now Is the Time to Get Rid of Those Ugly Spots
Do you know how easy it is to remove those ugly spots, so that no one will call you freckle-face? Simply get an ounce of Othine—double strength—from your drugist and a few applications should show you how easy it is to rid yourself of freckles and get a beautiful complexion. The sun and winds of March have a strong tendency to bring out freckles, and as a result more Othine is sold in this month. Be sure to ask any drug or department store for the double strength Othine, as this is sold under guarantee of money back if it fails to remove your freckles.

Othine Lab., Buffalo, N. Y.

STUTZ CHICAGO FACTORY BRANCH, Inc., 2500 South Michigan Avenue

WHEN THE WRIGLEYS BOUGHT THEIR PACKARDS THEY INSISTED ON A DRIVING LIGHT AS WELL MADE AS THE CAR ITSELF

Take a tip from the Wrigleys of Wm. Wrigley Jr. Company. They insisted that each of five Packards be equipped with a driving light as well made as the car itself. And that is typical. More of these cars are equipped with Lorraine than with all other driving lights combined.

That's why 3000 dealers of every known car recommend and equip it.

You may wonder how this watch-like construction is available in even the \$15 model. Because we refuse to cheapen a driving light just because it must be sold at a low price.

By building into the lamp head an automatic, self-adjusting friction device, Lorraine maintains a steady beam regardless of your speed or condition of the road. This same device in the handle keeps this light as steady as your steering wheel.

It has been said that every Lorraine installation looks custom fit! You can give credit for that to the symmetrically designed bracket system that blends this light with any body style.

In the lamp head

and handle are rotary-electric circuits! The only unfaulible way to transmit electric current from battery to lamp bulb. And Lorraine-like, these circuits never fail in the pinch.

The entire light is CHROMIUM PLATED! Chromium is 1-10 less hard than diamond! Polishing is banished forever!

And Lorraine always works with uniform smoothness. Every tiny part is made with the care that goes into a watch. Every working part runs in oil at uniform efficiency.

If you are thinking of a new car, get in touch with one of the dealers equipping Lorraine. When they can make nearly twice the profit on other driving lights and still recommend Lorraine, it is obvious that your satisfaction is all that counts with them.

Should you wish installation on your present car, phone or write the nearest Lorraine distributor listed below.

5. Build Safe Streets and Highways.
6. Re-establish Constitutional Representation.
7. Build Chicago the Best Convention Hall in America.

CONTROL OF VICE.

Investigators for THE TRIBUNE found and listed more than 200 gambling places last week. After the list had been printed the police made some raids and by Saturday night most of the places were closed. Mr. Hughes, the police commissioner, choosing to be waggish, said the list was a fake.

Open gambling, conspicuously and notoriously conducted, is detrimental to public welfare. It is understood by considerate people that there are limitations upon the successful regulation of human impulses, instincts, and habits. It is not easy to say just where public control of private conduct ceases to justify itself, but the facts usually reveal themselves and a working rule can be found in experience.

Generally it is agreed that vice cannot be permitted an open provocative existence without great danger to public morals, decent living, and necessary standards of conduct. Offenses against public decency are easily recognized and there the province of public authority is well defined. Some individual conduct must be regulated by other agencies, by instruction, example, authority in the home, by self-discipline, by religious and ethical training, and by experience. There cannot be three policemen for each individual.

The gambling instinct is almost universal. The person who does not at some time or other wager something on some element of chance is rare. The habit of gambling is not so common but it can be stimulated and it can become destructive. It can reach the proportions of an economic factor. It creates a totally false idea of subsistence. It not only is calculated to impoverish its addicts but it establishes the theory that livelihood can be had by chance and not by work.

Society cannot have an eye at the keyhole every time a few men want to sit down to a game of poker, every time people want to make bets on horse races, elections, ball games, or the weather. As it tries to do so it makes itself obnoxious and in the end futile. But society can and should make that human vices shall not have organization, political protection, a provocative and inducing display, and be notorious and easily available. Vice and politics have a ready affinity. One produces profits. The other furnishes protection. No city can have open vice without political protection. If the police cannot find and suppress what the normal citizen will find without difficulty it is because the police either have been pulled off the job by the political control or because they have declared themselves in on the game. The latter is the less likely because when the big profits are to be taken the politicians do not permit the police to get much of the take.

Whenever Chicago or any other city becomes a wide open town it is because political management is taking a percentage from the operation of vice. The police may be so unfortunate as to get nothing but the blame. Such an unfair arrangement is probably avoidable in some cases, but when conditions become notorious it is not because the police commander of a district has allowed it but because a political authority has ordered it. Politics never is in doubt as to conditions in any given area. Its success depends on precise knowledge and it has just that.

Chicago politics has a sort of frontier crudeness in its taking of profits. It gains confidence from regrettable election results, estimates the public intelligence and morality at a low figure, and runs wild in the security of these conclusions. We are not prepared to grant this as a true estimate. If it should be, the case of the city is fairly hopeless, but it cannot be continuously imposed upon by men who are interested mainly in degrading it for their own profit.

It is not to be believed that the majority of the people of Chicago consent that their children should be exposed to the greatest irregularities of life and the consequences by the incitements offered by politically protected vice, or that they consent that their own weakest moments should have the indulgence of an open market. They suspect themselves too much to desire these man traps to be open in every block.

We are quite sure that an honest publicity will find results in community action. It makes the decent citizen apprehensive and it makes the profit taking politician cautious.

PORTO RICO'S CAKE.

Porto Rico is making the not unusual demand of being allowed to have its cake and eat it, too. It wants all the advantages, material and moral, of independence, but none of freedom's responsibilities and hazards.

The case of Porto Rico is reminiscent of that of the Philippines. Filipino patriots also want independence, yes, indeed; but suppose they were granted independence and some other power came along to take it away from them. Well, they rather hope the United States would be generous enough to treat such a situation as it merited.

Porto Rico's case is similar, though the basic consideration is one of finance instead of security. Porto Rico being in the Caribbean and under the Union of the Monroe Doctrine, the United

States would guarantee the island's integrity in any event. What Porto Rico wants is the privilege of free trade with and the financial support of the United States. This privilege it would forego were independence granted. At the same time, Porto Rico desires tariff autonomy, the right to negotiate treaties with other countries, and, most of all, the advantage now enjoyed of keeping its internal revenues for its own use. Were it granted sovereign statehood, within the Union, it would be forced to accept some of the burdens of statehood and pay its share into the federal treasury.

Therefore Porto Rico seeks the status of an "associated state"; in other words, a relationship to the United States somewhat like that of the Irish Free State to Great Britain. But, says Arthur Sears Henning, a new political element is slowly springing up in Porto Rico—a younger party, whose members think of themselves as Americans rather than as Spaniards. We have advocated giving Porto Rico any reasonable degree of independence it desires. We hope to see this done. It might be well, however, to do no more than declare this the American policy at present and to wait until the younger American party in Porto Rico has grown into fuller voice before deciding how much cake Porto Rico can simultaneously keep and eat.

THE DRAG DOWN WEIGHT.

Oil will not be a good fuel for the Republican party this year. Teapot Dome is a liability. Even more than it was burdened with them four years ago, the party goes into action carrying Fall, the Daughters, Sinclair, the Continental Trading company, Liberty Bonds, Rorix Stinson, Gaston Means, and other impedimenta. It carries the Klux, the Anti-Saloon League, intolerance, puseyfooting, subservience, expediency, and an assorted phenomena of strange political actions and compromises. It is aching for a chance to rest and an opportunity to get rid of some of the responsibilities for which the real party is not responsible.

Responsible or not, the going will not be easy. The Democratic urge to take full advantage of the circumstances which are sad to the virtuous is keen. Here in Illinois, counties and districts hang by their eyelashes in political uncertainty. Cook county is one of the doubtful. Congressional districts are in doubt which ordinarily might be reckoned in the Republican list. There's an admitted handicap. With all these burdens to carry it is a political marvel that Illinois Republican politicians want to add Len Small, the most unpopular candidate that ever ran for governor, as more ballast to the balloon. If the thing has a chance of going up he may drag it to earth.

In going along with Mr. Small for renomination some very practical men of political affairs are taking the big chance that this election will be the last in which they are personally interested in public office holding.

AMERICAN NEGROES AND LIBERIA.

Arthur Sewall, a Negro of Chicago, recently visited Liberia, the Negro republic on the African west coast. He had gone there in the belief that the solution of the race problem in America lay in the return of his people to Africa. An interview with him disclosed his disappointment. He found Liberia primitive not only materially but also in the structure of its society. Slavery, he found, had been left behind there, but not far behind.

Mr. Sewall's testimony must be discouraging to those who have cherished the notion that a solution of the race problem in America is at hand at any time the Negro people choose to take advantage of it. Colonization seems to offer much, but in reality it offers little or nothing. The Negro population of the United States does not want to move to Africa. It never did, even in the days of slavery.

The American Colonization society began sending free Negroes from the United States to Liberia as early as 1820. In the next twenty-five years only 4,500 colonists could be found who would leave the United States for Liberia, where they could hope for equality as well as liberty. Currently it is estimated that in a total Liberian population exceeding 1,500,000, only 20,000 are colonists or the descendants of colonists from America. There are at least ten times that many Negroes in Chicago.

The fact must be faced that the Negro population of America is here and is going to stay here, and with it the Negro problem, because it is not of the American Negro, though it leaves much to be desired, is preferable to anything else he is likely to find elsewhere. He is securely rooted in America and to talk of his "return" to Africa as if he had just arrived is mere sentimentality. It is well over a century since the last Negro immigrant from Africa came to our shores. The Negroes of this country rightly pay no attention to those who advise them to move en masse somewhere else. They will not go willingly and the government of the United States has neither the power nor the will to force them to leave.

American Negroes suffer many discriminations. There are many things in this country they may not do, places they may not go, positions they may not hold. The fact must be faced that these discriminations are, for the most part, not being removed. The race problem in America, like many other problems, appears to have no ideal solution and no end. What hope there is in the situation lies in the power of both races to face the facts honestly and with as much good will as they can command. Frankness and good will will not solve the problem, but can ameliorate some of the symptoms.

Editorial of the Day

THE S-4 RAISED.

[The New York World.]
For the divers who had the months to raise the submarine S-4 it was no doubt natural to give a cheer when her conning tower finally broke the water. But to most of us it was no joyful occasion. The loss of this boat and the men who went down with her was one of the gloomiest chapters in the history of the navy, for the impression was not down, regardless of the report submitted by the official board of inquiry, that it was caused by negligence and incompetence.

Making all allowance for the factor of unforeseeable accident which may send any ship to destruction, making all allowance for the difficulties that beset the rescuers, the average American will feel that if high officers of the navy had been on their jobs and had known their business, the tragedy would never have happened. The fact that the boat was sent out to maneuver without the protection of a tender to warn other boats that she was submerged; the fact that no salvage equipment was within two days' journey of the maneuvering grounds; the fact that the work of rescue was carried on in an indecisive and bungling manner—these are points which will not soon be forgotten by anybody. The raising of the S-4 may be a triumph—but it is a triumph for the divers, not for the navy.

How to Keep Well... By Dr. W.A. Evans.

To the limit of space, questions pertaining to hygiene and prevention of disease will be answered in this column. Personal replies will be made to inquiries, under proper limitations, when returned envelope is enclosed. Dr. Evans will not make diagnosis or prescribe for individual disease.

(Copyright, 1928: By The Chicago Tribune.)

NOW IS THE TIME TO KILL MOSQUITOES.

NOW is the time for all good people to kill off the mosquito remnants. Last autumn, as the cold weather came on, the wiser mosquitoes began looking about for places in which to spend the winter. Many hung quietly around doors and windows, hoping to get into the houses. They did nothing to advertise themselves. They neither bit nor sang. They wanted nothing except to be missed. Whenever screens were taken down last early or windows were raised, or doors were kept open for the garbage to be carried out, the waiting mosquitoes slipped in unobserved. They found their way to dark, warm places, principally in cellars and attics. There they settled down to hibernate. As spring approaches the survivors try to escape. Again they are not disposed to sing or bite. They want nothing except an opportunity to escape. A few days later, when they are unseated, livelier, and more hungry, they will bite viciously whenever an opportunity offers.

Some of the spring and early summer malaria is due to these recently hibernating, early biters. The object in eradicating the mosquitoes at this time, is to advise people to kill the mosquitoes and flies before throwing the house open for a spring airing.

To accomplish this, darken all the windows except the one you are using especially to windows in basements and attics. Select one window, preferably with an east or north exposure, and leave it closed but light. All the recently hibernating mosquitoes and flies will collect on or near the light window. Being slow and lethargic, they can be killed with an ordinary fly swatter, or they can be killed by spraying them with a mixture of kerosene oil and pyrethrum powder in the proportion of 16 to 1.

If you will kill all the mosquitoes that have lived indoors this winter we will be nearly free from house biting mosquitoes next summer.

GETTING CHILD TO SLEEP.

Mrs. B. writes: My 3-year-old daughter goes to bed every afternoon. She sleeps from 2 to 4 and sometimes to 5. Getting up so late in the afternoon means she can't sleep again until 9 or 10 in the evening. I am a Scotchman and she lies in bed singing and talking until 11 or later. Isn't that too late for a child to go to sleep? She sleeps between 10 and 11 hours a day.

Dr. Evans replies: It is not unusual for a child to sleep so late in the afternoon. The child is not a creature of habit. The child is a creature of habit. The child is a creature of habit.

FRIEND OF THE PEOPLE

Letters to this department must be signed with names and addresses of writers.

NATIONALITY.

Chicago, March 24.—[Legal Friend of the People.]—How is nationality determined? How many generations does it take to change one's nationality? I am a Scotchman born in Scotland; my wife was born in Chicago from Scotch parents. We have two children born in Chicago. What is the nationality of the children? J. W. The test is used usually. We cannot answer your question without knowing in what country you intend to use the term. The children, while of Scotch parentage, are United States citizens by virtue of being born in this country.

TRIBUTE LAW DEPARTMENT.

COLLECT AGAIN.

Chicago, March 23.—[Legal Friend of the People.]—About fifteen years ago my parents collected \$600 awarded me by one of the railroads. I had met with an accident in which part of my foot was cut off. I was unable to work for some time. Not being of age, I could not be given the money. I am of age now and wonder if something could be done about this. Could I sue the railroad for recovery, inasmuch as they did not place the money in proper hands whereby I could receive it when I became of age? I have used my parents, for they have no money. L. P.

It is possible that the money was properly paid to a guardian and was afterwards lost. But it is not unusual for a child to be given money by a parent. The child is a creature of habit. The child is a creature of habit.

STREET WIRES.

Chicago, March 23.—[Legal Friend of the People.]—Is there a city ordinance prohibiting the stretching of a wire across a street, 20 feet in the air? My boy and a chum straight across the street want to install a sending and receiving set (telegraphic) between the two houses, but I was afraid they would not be allowed to. There is no street car line on the street. M. M. C. P.

There is such an ordinance but in many cases it is not enforced.

TRIBUTE LAW DEPARTMENT.

FROM THE TRIBUNE'S COLUMNS

65 YEARS AGO TODAY

MARCH 27, 1863.

CINCINNATI.—Burnside leaves for Kentucky tonight. Three steamers went down the river with a part of Burnside's old troops, bound for Louisville. Burnside has advised that the rebels have possession of Danville and are advancing southward. There is another report that the entire rebel force has crossed the Kentucky river and captured a train in the Frankfort and Lexington road.

WASHINGTON, D. C.—

The long roll was beat in Hooker's army yesterday afternoon. The rebels have crossed the Rappahannock in force. It was doubtless founded on the massing of heavy bodies of rebel infantry at Banks' and United States forces to prevent Hooker's crossing. All armies have been sent out of the land lines.

MURKESBORO, Tenn.—

The wife of Gen. Braxton Bragg died at Tullahoma yesterday. Gen. Bragg has been relieved of the rebel command there and Gen. Joe Johnston is now in chief command.

ST. LOUIS, Mo.—

An informant states that the rebels are concentrating their forces north of the Arkansas river with a view to making an effort to move against the army of the frontier.

CHICAGO.—

Several committees, named by various bodies, and numerous citizens met at the Tremont house to arrange for the canal convention. Dr. Daniel Brainard was named permanent chairman and Col. J. W. Foster secretary. The finance committee is composed of Y. S. Smith, anything, W. D. Houghtaling, C. H. Wicker, Fred Tuttle, William Sturges, J. A. Hahn, and J. T. Edwards.

30 YEARS AGO TODAY

MARCH 27, 1898.

WASHINGTON, D. C.—So far as the administration is concerned there does not seem to be any intention of taking decided steps which will provoke hostilities with Spain in the immediate future. On the contrary, the tendency is distinctly peaceful and in the direct line of submitting to Spain anything which Spain may do at this crisis. President McKinley is not disposed to make either the sailing of the Spanish fleet from the Canaries for American waters, in spite of its possible consequences, or the explosion of the Maine, in spite of its demonstrated cause, the immediate incitement to war. He is hopeful of securing an almost unbroken system of home rule for Cuba. He wishes to defer action for an indefinite time, possibly until fall. MADRID.—The last Washington

day. Do you think it better for me to keep her up all day and put her to bed about 7 in the evening; then she doesn't wake until 7 or 8 the next morning, and she has had 12 to 13 hours' sleep.

REPLY.

Let her sleep one hour after lunch, say from 2 to 3. Then awaken her. Put her to bed soon after supper and do all you can to keep her quiet until she falls to sleep.

CURING ECZEMA.

E. E. A. writes: 1. Our 14-month-old boy recently got eczema, and the sores have spread all over his body. We have not changed his milk, so it cannot be that. We have stopped giving him eggs. He has always been bathed daily and, other than this eczema, he has had no trouble. What can we do to relieve him?

REPLY.

2. Is Bright's disease hereditary? My wife's father and her two aunts died of it when less than 40 years old. My wife has kidney trouble with albumen and blood in her urine frequently.

REPLY.

1. This skin trouble is probably due to some food idiosyncrasy. The cause varies. It is not frequently at fault. Your physician can discover the cause by means of skin tests or by experimenting with diet. In many instances the rash fades when milk is dropped from the diet and some milk substitute is used. Sometimes feeding skim milk powder or buttermilk suffices.

CURING NEAR-SIGHTEDNESS.

Miss R. A. G. writes: 1. Is there any cure for nearsightedness in a person 24 years of age who has been wearing glasses for 8 years?

REPLY.

2. Can this be done by operation?

REPLY.

1. Nearsightedness is one condition that we tend to grow out of. When nearsighted people become old they sometimes lay aside their glasses and read the newspapers with unaided eyes.

REPLY.

2. No.

REPLY.

3. Some physicians think exercises are better than a limited diet.

REPLY.

4. Yes.

REPLY.

5. You will find a book on the subject by Bates. It is in some public libraries. The eye specialists say this book claims more can be delivered. There are some articles in the book, such as "Archives of Ophthalmology" and "Transactions of the American Academy of Ophthalmology," etc., but these are highly technical.

REPLY.

6. "He just discovered your father."

REPLY.

7. "Wait till he finds out your mother."

REPLY.

8. "Blanch is getting a tailored suit."

REPLY.

9. "His credit is still good."

REPLY.

10. "I ordered the omnibus already and it's coming out C. O. D."

REPLY.

11. "Tell the driver we're fresh out of bucks."

REPLY.

12. "Do I get the dress?"

REPLY.

13. "Yes, if C. O. D. stands for Cash on Delivery."

REPLY.

14. P. S. We can't speak now as looks like I'm gonna have a happy Easter.

IT DOES SO.

RHL: Bobby Jackson says a pun may be the lowest form of wit, but it gets the highest salary in vaudeville.

JAZZ OF OLD DUQUE.

EARN \$250,000. Get Ready to Attend College.—W. G. N. Well, that ought to be enough in most cases. If he doesn't join a fraternity. We showed that item to a papa who has two sons and a daughter in college. Papa laughed bitterly. "The poor sinner," said papa.

DEAR! YOU'RE NOT DOUBTING US, ARE YOU?

RHL: I'm half way through the month, doubting my country, and I want to ask you again. Do you honest to goodness, cross your heart, hope to die, swear that there isn't any catch to it? I know you told me before there wasn't, but I'd just like to have you tell me again.

OH, THAT WAS VANGIE CHOKING.

My Esteemed Publisher: The other day I was passing The Tributer, and above the moaning of the buses and the screeching of auto brakes I heard distant laughter. . . long, deep, uncontrollable laughter. . . like the horns of an elephant blowing. . . and I knew, Dick. . . I knew that you were in the very act of reading my contributions.

OSWALD OF WRELSYAN.

WOMAN LEAVES \$100,000 TO AID AILING VETERANS

Miss Celeste J. Miller
Also Helps Y. W. C. A.

The American Legion of Illinois is bequeathed approximately \$100,000 under the will of the late Miss Celeste J. Miller, famous globe trotter, who died Feb. 7 at the age of 82 years.

Her initial testament, disposing of an estate estimated at \$250,000, was filed yesterday before Edward S. Scheffer, assistant to Probate Judge Henry Horner.

The bequest to the American Legion is a permanent trust fund "to be used in the medical, treatment, general care, and maintenance of soldiers of the United States of America, residents of Illinois, who were wounded or whose health was impaired while in the service of the United States army, and which shall have regard for the perils and hardships of such service."

Y. W. C. A. to Get Farm.
The Young Women's Christian association of Chicago, under the terms of Miss Miller's will, will receive her 40-acre farm in Macon county, Ill., at the death of her nephew, Julie F. Bower, 200 East Pearson street, who will enjoy the entire income from the property during his life.

Lombard college of Lombard, Ill., left \$2,000 and the Old Ladies' home of Princeton, Ill., is given twenty-five shares of capital stock of the Citizens' National bank of Princeton.

Native of Princeton, Ill.
Miss Miller was born in Princeton, Ill., in 1845. She was a daughter of Henry F. Miller, a pioneer Illinois settler, who amassed a fortune in real estate. Her travels carried her around the world thirty-two times, returning to Chicago from the last trip in the spring of 1927. Her home in Chicago was at the Auditorium hotel.

Four nieces and nephews are bequeathed \$4,000 each. They are Henry F. Miller, Peoria, Ill.; Mrs. Maud Miller Waggoner, Cedar Rapids, Ia.; Mrs. Ruth Walden Miller Spring, Paton, Ia.; and Guy Roderick Miller, Lohrville, Ia. Three children of the late Mrs. Bertha E. Godwin, Des Moines, Ia., a niece, will share \$4,000. A namesake, Celeste Long, of La Crosse, Wis., is left \$1,000.

WHERE DO THEY STAY?
Chicago, March 21.—We have a large number of presidential candidates in the city, but does anybody know where they stay? On the important questions of instance, waterways, league of nations, world court, flood control, farm relief, unemployment, prohibition, etc., of course they are all for flood control, but what kind, and how about the league? Shall it be divided between the states and the federal government or entirely a federal matter? They are all for farm relief, but what kind? They are all for waterways, but what kind? They are all for prohibition enforcement of course (although law never has been, is not now and never will be enforced), but again, how are they going to do it? How are they going to solve the unemployment problem? Where do they stand on international issues? They are all busy lining up delegates for what? The independent voters would like to know.

GEORGE EDWARD LEAD.

THE SMARTNESS OF clever styling . . . the comfort of perfect fit

NO matter how difficult you may be to please in foot-wear, you'll be delighted with the new Ground Gripper Dress shoes. A perfection of workmanship, a richness of material, an authentic interpretation of the newest footwear modes—here indeed are shoes of charm and distinction.

And in addition to their excellence of appearance, they inherit the Ground Gripper reputation for comfort. They lessen fatigue and nerve strain, and guard your feet from foot ailments.

For men, also, there are Ground Grippers equally distinctive in style, outstanding in comfort. The new Ground Grippers are now on display. Do come in and let us show you them today.

Three comfort features
Only Ground Grippers combine these three essentials of foot-comfort: the Straight Inner Line—the Patented Rotor Heel—the Flexible Arch.

TWO RESCUERS RACE AHEAD OF FLOOD TO SAVE 12 IN ITS PATH

Wisconsin Rapids, Wis., March 26.—(AP)—Racing ahead of ice choked flood waters of the Wisconsin river, two men today rescued two farm families as the river's waters broke through an embankment and flooded an old creek bed.

Twelve persons living on the Rocheleau and Mahar Brothers' farms were rescued through the quick work of Dave and Henry Court. A rowboat was brought out on a truck from the nearby town of Biron and the two families taken to safety.

The water was twelve feet deep in places.

TWO SUSPECTS IN DOUBLE CAFE MURDER CAUGHT

Two men sought since March 8 for a double murder in the Dreamland Inn Cafe, at 1227 West Van Buren street, were in custody last night when Lieut. Paul Riccio and his detective bureau squad seized Angelo Lucio of 2121 West 13th street, one of the owners of the cafe. The detectives found Lucio in a soft drink parlor at 17th and Blue Island avenues.

Dick Terradickla, the other suspect, known also as Terry, early in the day

had been picked from among the thousands of mourners attending the funeral of "Diamond Joe" Esposito. Terradickla also was seized by Lieut. Riccio and his men, and his brother, Joseph, is still being sought.

Police say Lucio had a long standing feud with Frank Siciliana, also of 2121 West 13th street, one of the two men killed in the cafe battle. The other man killed was Joseph Cicola of Detroit, who was believed to have been imported by Siciliana to help him end the feud.

DIES OF LEAD POISONING.
Carl Oley, 47 years old, 818 North Oakley boulevard, died of lead poisoning at the County hospital yesterday. Oley was a painter and had been ill for several months.

Discrimination

To be reasonably critical of the food, the service and the environment of the restaurants favored by your patronage is not merely a privilege—it is a right you should exercise. Why not Henri's for luncheon today?

'IMPERIALISM' OF U.S. PROVES BOON FOR PORTO RICO

It's Real "Exhibit A" of Yankee Methods.

BY ARTHUR SEARS HENNING.

(Chicago Tribune Free Service.)

(Copyright, 1928, By The Chicago Tribune.)

SAN JUAN, Porto Rico, March 26.

What of the record of American imperialism in thirty years of stewardship of Porto Rico? On the whole a record to be proud of.

Porto Rico is an example of the benevolence of American imperialism. It is exhibit A. After having seen what has been accomplished in this island under American rule, you understand what is meant when it is said that Cuba would be far more advanced today had the United States annexed the island in 1898, instead of turning it loose to shift for itself after thirty years Cuba is still in a backward state, largely for lack of highways.

Almost the first thing the Americans started in Porto Rico was road building. The island now is covered with a network of well paved highways, and the extensions of roads is going forward steadily. Automobiles and motor trucks reach the most remote parts of the island.

Markets Made Accessible.

As in Haiti and Santo Domingo the road system started by the Americans transformed Porto Rico economically. The interior was brought into touch with civilization. Markets became more accessible, and production increased.

Of equal importance was the economic benefit conferred on the Porto Ricans when the annexation extended to their products the protection of the American tariff. They gained free entry to the American market, where their products have been sold in increasing volume for a generation under protection from foreign competitors. This alone put Porto Rico on easy street.

In 1900 Porto Rico sold only \$3,000,000 worth of goods to the United States. Last year it was \$100,000,000 worth. In 1900 Porto Rico bought \$7,000,000 worth in the United States, and last year \$87,000,000 worth. Ninety per cent of Porto Rico's trade is with the United States.

Underneath Cuban Growers.

The comparative benefits of American imperialism completely or only partially extended, are illustrated by the advantages which Porto Rican sugar and tobacco producers enjoy over their Cuban competitors. The Porto Ricans, though 1,000 miles farther from the American markets, can undersell the Cubans in the

United States and yet make larger profits.

The Porto Rican sugar producer is getting nearly 4 1/2 cents per pound, and the Cuban producer a little over 2 cents. The difference is occasioned by the fact that sugar from the American possession of Porto Rico enters the United States free, while sugar from Cuba must pay the 8 per cent American tariff rate.

Ever and anon the soulful cry for free trade with the United States arises from Cuba, as the prosperity of the Porto Rican producers is viewed from afar.

No Forcible Americanization.

There has been no forcible Americanization of Porto Rico. The Americans introduced a multitude of reforms and gradually withdrew, leaving the government in the hands of the islanders. The only American governmental heads now are the governor, attorney general and auditor. The commissioner of education is the only other officer appointed by the President, but he is a Porto Rican.

The Porto Ricans have carried forward the reforms introduced by the Americans, in some cases ably, and in others not so well. There has been continuous advancement, but probably

not so much as would have been obtained had the Americans remained in control of the administration.

All along the line it is the same old story. In Latin-American countries the Nordic brings a greater degree of efficiency to all undertakings. What has been done in thirty years has been done on the slender means. The revenue of the insular government has tripled and quadrupled since the Americans came, but today is only \$11,000,000 a year, only \$3,000,000 more than the income of the Negro republic of Haiti, which is a barbarous country as compared with Porto Rico. Without the federal revenue in the island, which Porto Rico is allowed to retain, the income of the insular government would not exceed \$2,000,000. This is due to the fact that the taxation of real property is in a rudimentary stage.

U. S. Introduces Land Tax.

Before the American régime real estate was not taxed. It never is in Caribbean countries. Revenue is obtained by consumption taxes. In that

way the rich land owners are in control of the government and soak the poor, letting themselves down easy.

The Americans introduced the land tax system, which is being gradually developed in the face of stiff opposition. The privilege of retaining the federal tax revenue for insular government tempers the wind to property tax payers.

Real and personal property in the island is assessed at five million dollars on a valuation of three hundred million dollars. State and local taxes in the United States are \$45 per capita, compared with \$8 in Porto Rico.

Fight Hook Worm Disease.

President Coolidge, in his letter, quoted a Porto Rican author's description of the pitiable physical and moral state of the peasants before the American occupation. Their condition has been improved considerably under the American régime.

American and Porto Rican doctors are successfully combating hook worm disease. Last year nearly 150,000 treatments were administered and 22,

000 fever cases were reported.

Anemia is prevalent among the peasant and laboring classes. This is a great health problem of the island, which American specialists at Columbia university school of tropical medicine here are trying to solve.

Build 1,000 Schools.

Probably the most striking progress has been made in education. Illiteracy in the last twenty-five years has been reduced from 83 to 40 per cent of the population. There are nearly 1,000 public school buildings today, where there was not one when the Ameri-

cans took over the island. There is an enrollment of pupils today aggregating 213,000, as compared with 30,000 when the Spanish flag was pulled down.

One mistake the Americans made was in trying to impose English on the school children too suddenly. At first an attempt was made to conduct instruction in school exclusively in English, even in the primary grades.

A decade or more ago the system was reformed. Now instruction is in Spanish up to the sixth grade, though there is one class in English speaking in each of the lower grades.

Lifelong Happiness Cannot Begin Too Soon!

HOW early in their lives do children begin to show a love of music?

When they hear their first simple melody! There's hardly a child who has not some fondness for tune and tempo. Some show it more—some less—but it's the birthright of all mankind.

To make the most of their lives, give them musical training now—with the instrument that has brought music into more homes than any other piano—the

KIMBALL

All their education depends in some degree on the early development of their musical taste. And the brilliant tones of the Kimball will do wonders in quickening their imagination and broadening their growing sense of beauty.

Among the many Kimball designs that you should hear is the graceful "Junior" Upright, a favorite with the youngsters. See also the new period styles, classic-modern grands, uprights and players. A demonstration will be given whenever you call.

The Kimball "One-Price" policy assures the same full, generous value to every purchaser. Partial payments if desired.

ROCKEFELLER AID DEFENDS POLICY IN WEST VIRGINIA

Single Law Rules Coal
Business, He Says.

BY PHILIP KINSLEY.
(Chicago Tribune Press Service.)
Washington, D. C., March 26.—(Special.)—Policies of the Consolidation company of West Virginia, controlled by their union contract and a statement of their men were debated before the interstate commerce committee of the senate today by J. P. Rockefeller, vice president of the company and formerly a personal employee of John D. Rockefeller Jr.

The present coal industry is operating under a "jungle law," the witness said. It is the law of the survival of the fittest. The only good result, he stated, was that America is getting the cheapest coal in the world.

Output Slumps in Union States.
Senator Gooding (Rep., Idaho) pro- duced records to show the trend of coal production under this race for production and wild overproduction. In 1912, where contract labor with the miners was first begun and where the union was still hanging on with grim determination, the production of coal dropped from 61,000,000 tons in 1912 to 45,000,000 in 1917. In Pennsylvania, which was unionized until a year ago, the production has dropped from 172,000,000 tons in 1913 to 131,000,000 tons in 1927. In Ohio, which was unionized until recently, the production has dropped from 36,000,000 tons in 1913 to 24,000,000 in 1927.

In Kentucky, on the other hand, where the operators are able to dictate the price of labor and undercut the markets of the north, the production has grown from 19,000,000 tons in 1913 to 51,000,000 in 1927. In West Virginia, another nonunion field, the production has grown from 71,000,000 tons in 1913 to 151,000,000 in 1927. The Rockefeller company is the largest in the West Virginia field and has been taken sharply to task for its policies. The committee members are concerned with a violation of the anti-trust agreement with the union in 1914.

Rep Both Sides Quit Contract.
Mr. Anderson refused to admit for- giveness that the contract had been broken. He took the position that the contract had been abandoned by mutual consent and that the men begged the company to employ them on new terms when a shutdown was threat- ened.

He presented statistics to show that the men made more money under the new scale than under the old scale, whereas they had more working days, the annual earnings per man in- creased 27 per cent in the open shop periods over the union period, he said. During the four years under the union scale the average annual earnings were \$1,257. In the open shop period the earnings have gone up to \$1,456 a year.

The agreement at Baltimore, Mr. Anderson said, was signed under duress by the majority of the operators. Percy Telford, president of district No. 17 of the United Mine Workers, the southern West Virginia field, began his testimony of conditions in that part of the state. He said it was far fetched for Mr. Anderson to say that the men in the mine wanted the Baltimore agreement set aside, as they had no voice in it. This was all decided in New York, he said.

Cunningham Surrenders to Senate Sergeant at Arms

Philadelphia, Pa., March 26.—(AP.)—Thomas W. Cunningham, sheriff of Philadelphia county and treasurer of the Republican state committee, surrendered to a deputy sergeant of arms of the United States senate today on the warrant charging him with contempt of the senate.

OBREGON CALLS MEXICO TO FIGHT EVILS OF LIQUOR

MEXICO CITY, March 26.—(AP.)—Prohibition was injected into Mexican national politics tonight by Gen. Alvaro Obregon, sole candidate for the presidency of the republic.

"Reaction is our principal enemy, alcohol is its most formidable ally, cards are the ally of all the enemies of morality," he said, appealing to the rural people to exert themselves for moral advancement.

"We must eliminate from our social order the drones called 'cardsharps,' who live on honest men's work," said Gen. Obregon. "We must show that public opinion arraigns as accused at the bar of justice all those who encourage the consumption of alcohol, since it atrophies mental faculties and morals and destroys the social order. Alcohol is a cancer we must fight in order to extirpate it from the Mexican family."

Gen. Obregon said that "wicked Catholics" were those who used their religion as a means of propagating anti-government activities.

BROKERS SHOOT AGENT AT NEW MIDLAND CLUB

John Baskerville, 55 years old, an investment broker with offices at 30 North La Salle street, late yesterday in the new Midland club, 168 West Adams street, of which he was one of the founders, threatened several men with a revolver, fired one shot and wounded one man in the hand.

Before Baskerville, who was said to have been under the influence of liquor, could fire a second shot, the revolver was knocked out of his hand and he was seized and held until police arrived.

E. R. Hurst, an assistant to O. W. Bartlett, the fiscal agent of the club, was the man wounded. As Baskerville was locked up at the bureau, Hurst was taken to the Iroquois hos- pital, where his wounds were dressed. The shooting occurred in the office of the secretary on the third floor. Hurst, Mrs. Hurst, and Bartlett were said to have been in the office. Baskerville is said to have fired at Bartlett.

Even the most apathetic appetites were roused to keenest desire by the "Mickelberry" flavor

appetite and aids assimilation—faith- fully follows Grandmother Mickel- berry's original recipe.

But, instead of the select few of those early days, millions now enjoy these savory sausages. They are served frequently in homes, clubs, hotels and on our finest trains.

Mickelberry's old farm sausage is made and delivered fresh every day. Your meat shop has it, in the famous green and yellow package, in links, patties or meat. Try it, using today's recipe.

Mickelberry's Food Products Co., 801 West 49th Place, Chicago, Illinois. Telephone Yards 1700.

You will also enjoy Mickelberry's Southern Smoked Hams, Sliced Bacon in Cartons, Spiced Pig's Feet and other dainty luncheon specialties.

Today's Recipe

BAKED
MICKELBERRY STEAK
2 pounds Mickelberry Sausage meat
Mashed potatoes Cooked carrots
Canned peas

Mix the sausage into one large roll, then flatten into a steak about an inch and a half thick. Put in covered roasting pan or casserole and bake half an hour. Uncover, drain from drippings and brown. Remove to hot platter and garnish with hot mashed potatoes and alternate spoonfuls of hot, well seasoned carrots and peas. This may be served as a plated steak and the potatoes browned lightly before serving.

The same unequalled recipe

The delicate, spicy flavor of Mickel- berry's old farm sausage which so many relish today—which invokes good

OHIO GUARDSMEN ACTIVE IN KLAN, WITNESS SAYS

Aided in Raids; Had
Knight Riders' Branch.

Indianapolis, Ind., March 26.—(Special.)—In a deposition today before Arthur L. Gilliom, state attorney general, James R. Ramsey of Gratiot, Wis., a former official of the Ku Klux Klan of Ohio, described the Knight Riders of Ohio as a masked and armed organization, military in character and closely affiliated with the Ku Klux Klan. He also charged that many members of the Ohio National Guard were involved in the organization.

The Knight Riders, Ramsey testified, were men "with a past," whose duty, he said, was to carry out "a program of terror, including public whippings, burning churches and theaters, making threats, illegal liquor raids, and engaging in guerrilla warfare."

Ramsey appeared as a witness in the suit which Gilliom has filed to evict the Klan from Indiana, declare it bankrupt, and annul its charter as a corporation.

Active in Ohio Politics.

Ramsey said the Klan in the 1924 political campaign successfully supported Vic Donahay, Democrat, and in 1926 supported Bert Buckley for treasurer on the Republican ticket.

Ramsey intimated that the Ohio group was active in entrenching the Klan in Indiana. He told of visits of the Knight Riders and the grand dragon's guard into Indiana, citing one meeting in Richmond, Ind., in 1926, when W. Lee Smith, grand dragon of the Klan in Indiana at the time, and "a Mr. Lyons" were present. The grand dragon's guard of Ohio did nothing at the Richmond Klan meeting, but was "just present," Ramsey said.

In 1926, Ramsey said, he took fifteen men of the grand dragon's guard to Huntington, Ind., and helped in a parade in that city. Aurora also was visited.

Affiliated with National Guard.

The Ohio National Guard and the Klan in Ohio were closely associated, Ramsey said. Officers of the state organization in some instances were klansmen. National Guard rifles were given klansmen for use in a raid at Dayton, O., on one occasion, he said. Ramsey turned over to Gilliom a group photograph of sixty-five Knight Riders, supposedly taken at Buckeye

ORDER ILLINOIS GUARD TO REDUCE STRENGTH; TOO MANY RECRUITS

Springfield, Ill., March 26.—(Special.)—Because the Illinois National Guard has too many recruits, Adj. Gen. Carlos E. Black today ordered commanders of all units to reduce their strength by March 31.

The maximum allocated strength of the state's military forces is 9,426 men, but on Feb. 29 the Illinois National Guard's roster showed 9,529 men.

While Gen. Black believes this showing "speaks in volumes for the work of the commanding officers," it is necessary to comply with regulations and reduce the strength, he said. Commanding officers were advised to take this opportunity to clean out the "dead wood."

Lake, O., Aug. 29 or 30, 1925. All were dressed in black robes and hoods with white skulls and crossbones on the cowls; each wore a holster and high caliber revolver.

Ramsey pointed out Clyde W. Osborn, former grand dragon of Ohio; Hiram W. Evans, imperial wizard, and members of the Ohio National Guard. He said some of the members of the Guard were members of the Akron field battery of the Ohio National Guard and others were members of the Cincinnati unit of the 147th Infantry of the Ohio National Guard.

Stephenson Then in Ohio.

Ramsey said these guardsmen were sent to Washington and participated in the Klan parade held there a few years ago. He said he met D. C. Stephenson when Stephenson was a king kiegale in Ohio and before Stephenson became Indiana grand dragon.

Ramsey said approximately 10,000, 400 had been collected by the Klan in Ohio. At its peak, he said, the Klan in Ohio had more than 400,000 mem-

bers. The membership dropped to 250,000 in the winter of 1926.

He told of a state-wide collection being made of \$200,000 for a home for state officers, but no home ever was built.

Activity in Politics Related.

Ramsey went into details of the Klan's political activities in Ohio. Slates were distributed in campaigns in recent years, Ramsey said. The state intelligence department of Ohio, which ordinarily charged \$36 membership, granted to klansmen a special rate of \$15.50. The purpose of the state intelligence department, Ramsey declared, was principally "to control sheriffs, prosecuting attorneys, police chiefs, and snipers in general."

Ramsey asserted that he took the grand dragon's guard of Ohio into the intelligence department on the instructions of Osborn, then grand dragon. He testified that the Klan riot in Niles, O., in 1924, in which several persons were killed, started through the radicalism of klansmen assigned to be deputy sheriffs.

"Men with a past or a skeleton in their closet comprised the Knight Riders and the battalion of death," Ramsey asserted. Such men, Ramsey testified, patrolled the streets at Niles

just before the riot. "Whenever a foreigner approached," Ramsey said, "the men on patrol would question him and perhaps rap him over the head."

Knight Riders, when qualifying for the organization, Ramsey said, often were asked whether they would kill a man if ordered.

Denied by Ohio Official.

Columbus, O., March 26.—(Special.)—Ohio National Guardsmen were connected with only one Ku Klux Klan demonstration in Ohio, and that was when the guardsmen marched into Niles, O., with machine guns and bayonets, in November, 1924, and halted a Klan parade, Adjutant Gen. Frank D. Henderson said today, denying the testimony of J. R. Ramsey at Indianapolis.

"I have never heard of any participation of Ohio National Guardsmen in a Klan meeting at Buckeye Lake," the adjutant general declared. "I doubt the story of such participation."

GILLIOM OPENS CAMPAIGN

South Bend, Ind., March 26.—(Special.)—Arthur L. Gilliom, attorney gen-

eral of Indiana and candidate for the Republican senatorial nomination, opened his campaign here tonight with a denunciation of the Ku Klux Klan.

"At the very outset I am going to spike the dishonest propaganda by Klan leaders to the effect that I am 'wet' and unfriendly to the church. I never have been, am not now, and never will be a wet," Gilliom declared. "I am irrevocably against the return of the Klan, but I am equally against the gigantic bootleg industry that has sprung up under prohibition."

Gilliom assured his audience that while he was a Protestant he would always uphold religious tolerance and continue his fight against Klanism and fanaticism.

The attorney general said the principal problem confronting the Republican party was to cleanse it of the

selfish and corrupt influences of Klan leaders and their money.

The attorney general promised further revelations of the Klan's "secret ramifications" and said that during his campaign he would produce documentary evidence to substantiate his disclosures.

Boys Find Human Bones on Dump Pile; Murder Feared

A number of human bones were found on a dump at 90th street and Stony Island avenue yesterday and police advanced the theory they were part of the skeleton of a woman who had been murdered. Two 12 year old boys, Eugene Lynch, 1728 East 82d street, and Everett Asherman, 1717 East 83d street, led the police to the spot.

*An automobile
built for 1948*

When New York City is double-decked with streets, the Phantom you buy today will be running on them

The Rolls-Royce was first designed in 1907. It was built last 20 years, and it did. That design first anticipated, then was abreast of, every other mechanical idea. And while styles in engine, steering, brakes, and chassis construction came in and went like millinery, that fundamental design was never changed, and now had to be.

Now, there is a 1928 design. The Rolls-Royce New Phantom is as much in advance of 1928 as the old design was in advance of 1907. Here is the superfine motor-car for the owner-driver. Ten minutes a month is all the special attention it needs. Abundant power takes the New Phantom uphill lithely; across thousands of miles of country surely; and over all kinds of roads in all kinds of weather with steadiness beyond belief. Its comfort and luxury are unsurpassed. Its safety, because of its Rolls-Royce patented six-brake system, is remarkable.

But more than this—its fine qualities are permanent. Rough roads, hard usage, many years, cannot wither the fine flower of its performance. Among other motor-cars of whatever price-class, you may find some of the same kind of features found in the New Phantom. But not one of them can offer the margins of excellence which can only be Rolls-Royce. For when the ordinary car of today rests rusty in some forgotten scrap heap, the New Phantom of the same year will be giving perfect service.

Where else can you find a motor-car which promises never to perform, not for 2, 3, 5 or even 10 years, but for twice the time?

Chicago Salesroom: 2512 South Michigan Avenue.

Don't Be Skinny and Scrawny

New YEAST and IRON will add pounds of weight in 3 Weeks—or Pay Nothing

If you are skinny as a rail and can hardly drag your body through each day, do something to get on good, firm flesh. Start right now taking Ironized Yeast and get pounds of weight where you need it.

How YEAST and IRON Make Weight and Strength

Ironized Yeast is a new wonder in one-weight-building Yeast and strengthening Iron. The yeast is the same used in making malt, and which makes malt so beneficial. It is specially cultured yeast, concentrated to give the utmost in food-producing value.

This Yeast is treated with pure vegetable iron, the same as in spinach, lettuce and celery. In this form iron is easily assimilated by the body, making rich, red blood and toning up nerves and muscles.

Only when Yeast is ironized in this way is it more effective—for iron is needed to bring out the weight-building value of Yeast. This special formula Ironized Yeast gives you results in half the time required by yeast or iron taken separately.

It cleans the blood of impurities that run counter to the idea that you get a clear healthy skin. Go to your druggist and get a handy bottle. It will prove to you that you can be made attractive and healthy. Pleasant, tasty tablets in a bottle. They do not upset the stomach nor cause gas or bloating.

Try It on "Money-Back" Offer

Just ask your druggist for a full size treatment. If you are not satisfied with the quick results, get your money back. It will be refunded in full. If inconvenient to buy from the druggist, send \$1.00 to the IRONIZED YEAST CO., Atlanta, Ga. Desk 148731.

CAUTION! While the amazing health-building value of IRONIZED YEAST is demonstrated in cases of lack of energy, indigestion, constipation, skin eruptions, poor complexion, and a generally weakened physical and mental condition, IRONIZED YEAST should not be used by anyone who OBJECTS to having weight increased to normal.

stiff neck

Stiffness in neck muscles, with that aching, "pulling" pain, is promptly relieved by BAUME BENGUE (pronounced Ben-Gay).

Applied freely, rubbed in well, and covered with flannel, the powerful ingredients penetrate deeply into the tissues, loosening congestion, easing spasm, soothing irritated nerves, bringing rest and comfort. Good for every ache and pain. Insist upon the original.

BAUME BENGUE
ANALGESIQUE

BABY'S SKIN

Is tender and sensitive. Use this pure, hygienic (not medicated) soap. It will not injure the delicate texture. You can depend upon its purity.

(Above) A RECENT EVENT at the Riding Academy of Chicago was attended by Mr. E. Root, Jr., and Miss Evelyn Root. Again Pepsodent-bright smiles are socially important.

(In Circle) THE MODERN MAILMAN is a romantic figure. Both Miss Grace McKay and Lt. Hugh Ross possess the dazzling white teeth only Pepsodent affords.

SMILES ARE DAZZLING WHITE when film is gone. Teeth sparkle like polished jewels. Gums firm to healthy coral tint. Thus this new scientific way of dental care becomes one of the greatest beauty treatments of the day, and, with its unique therapeutic and prophylactic qualities, a great aid in oral hygiene.

(Right) FEW PEOPLE KNOW how white teeth really are. Miss Rene St. Denis, like millions of others, has discovered through use of Pepsodent.

(Above) THREE STARS—Mae Allison, Virginia Valli and Julianne Johnson. Your smile, by daily use of Pepsodent, may become as bright as theirs when film is gone.

Teeth Made Whiter

By Removing Dingy Film

Most teeth not naturally dull "off color," but simply covered by a film—a film that fosters serious tooth and gum disorders

GLISTENING, white teeth mean simply film-free teeth. If your teeth are "off color," dull, lustrous, they are film coated. Properly protected teeth and gums mean the same thing—film-free teeth.

Ordinary brushing does not successfully combat film. And that is why, largely on dental advice, thousands are adopting Pepsodent. For Pepsodent is a Scientifically Developed Film-Removing Agent, different in formula and effect from any other dentifrice.

Film is a dangerous enemy of both teeth and gums. Run your tongue across your teeth and you can feel it.

Germs by the millions breed in that film. And germs, with tartar, are a proved cause of pyorrhea. Film, too, fosters the bacteria which invite the acids of decay. Discolorations from food and smoking lodge in it; teeth look dingy and "off color." You must remove film TWICE daily, say leading dentists.

Pepsodent has largely changed the tooth-cleansing habits of the world. It removes that film completely—thoroughly, and in safety to enamel. It acts to firm tender gums. It alkalizes the mouth's saliva to combat the acids of decay. It cleanses teeth as no old brushing method has ever done.

It meets the dominant dental exactments of today, for whiter, healthier teeth and healthier gums. Get big tube or mail coupon for 10-day trial tube.

PEPSODENT
The Quality Dentifrice—Removes Film from Teeth

THIS *from the White House*

A FORMER President of The United States paid that tribute!

He saw The Philadelphia Evening Bulletin as a newspaper that had grown to be far larger than any other in its city—that had become one of the greatest in America.

—that by its sane treatment of news, its unfailing accuracy and dependability, was welcomed alike in great mansion and modest home.

The story of that achievement is the story of a long, hard road—stretching back over thirty-three years. The story of a rigid adherence to certain standards of good newspaper making. A determination to build a fine newspaper that

would reflect the conservative city of its birth.

Without screaming headlines. Without sensational writing or lurid display. Without any tricks of journalism to win readers. But to present the news—soundly, accurately and thoroughly.

And to sell that newspaper just as any other high-class product is sold. Without premiums, circulation contests or any kind of awards.

The solid, substantial men of Philadelphia learned to depend upon The Evening Bulletin.

Lawyers, doctors, men of finance, business leaders—sought it for its accuracy.

Into the fine homes of conservative Philadelphia it carried the world's news.

This confidence spread and the circulation crept up. A few thousands in 1895. Sixty thousand in 1897. A quarter-million ten years later.

And on through the years it has steadily climbed. Today more than half-a-million people choose The Evening Bulletin regularly, solely because they want a fine newspaper.

The manufacturer of a quality product finds here a responsive market; finds, too, that he gets that added value in his advertising which comes through circulation built upon confidence alone.

America's Third Largest Market

Over 600,000 homes. And more than half-a-million copies of The Bulletin are sold in this great market daily. In rich suburbs: Bryn Mawr, Radnor, Chestnut Hill, Rosemont; or the prosperous residential sections of Philadelphia—go where you will, you will find The Evening Bulletin is the choice in nearly every home.

The Evening Bulletin

City Hall Square

PHILADELPHIA

New York Office: 247 Park Avenue
Chicago Office: 28 E. Jackson Boulevard
Detroit Office: 321 Lafayette Boulevard
San Francisco Office: 641 Market Street

The Test of Quality

In the exclusive shopping district on Chestnut Street are 164 shops that advertise. 146 advertise in The Evening Bulletin, year after year. Their judgment is proved in sales, day after day. They know where advertising pays. More individual retail store advertisements appear in The Bulletin than in all other Philadelphia papers combined.

NEW FLYING LAW PLANNED AS ECHO OF PLANE CRASH

Blame Pilot for Accident;
Victim Recovering.

Need of state legislation to inflict penalties upon reckless aviators was voiced again yesterday at an investigation into the airplane crash Sunday at the Heath flying field, Touhy and River roads. Sidney Sheridan, 25, of 6717 Kenwood avenue, a metallurgist for the Illinois Central railroad, who was critically injured in the 200 foot fall, is expected to recover.

Robert E. James, county supervisor of aviation, blamed Leonard Quintall, the pilot, for the accident, although the latter had stated the drop was caused by Sheridan becoming panic-stricken and "freezing" the dual controls in his unlicensed biplane. James said that nearly every one of the county regulations had been broken by Quintall when he took the air with a passenger.

New Bill to Be Drafted.

The county advisory committee on aviation, James asserted, will meet soon to draft a bill for presentation next winter to the legislature. Reed Landis is chairman of the committee. Other members are Col. Paul Henderson, Capt. Gilbert Smith, Capt. John Holmberg, Walter Meyer and J. J. Klappa.

County regulations require that all pilots comply with federal requirements and secure licenses for themselves and their planes before carrying passengers. Mr. James said, "Quintall failed to do this. The field used by him is leased by Fred Heath, who has not cooperated with the county in regulating wildcat flying. The field has not received an official O. K. for that reason."

Tells of Warnings.

Mr. Heath, who conducts a school of aviation, said that several times he has notified unlicensed flyers to depart from his field, but pointed out that he could not prevent them from landing there. He agreed with Mr. James that a statute is needed to make flying safer.

As long as the unlicensed flyers take the air alone, he said, he will not object to the use of his field. The government allows unlicensed pilots to fly alone until they have accumulated the necessary number of flying hours, Mr. Heath pointed out.

George Budwig, United States inspector of aircraft, announced yesterday that the interstate commerce commission, by which he is employed, has no jurisdiction over airplanes not engaged in interstate traffic, and that no investigation would be made by him into the crash. "If the people of the state wish to enforce flying by licensed pilots only, they should pass a law to that effect," he said.

MELLON TO APPROVE TAX CUT OF BETWEEN 200 AND 225 MILLION

[Chicago Tribune Press Service.]

Washington, D. C., March 26.—(Special.)—Secretary of the Treasury Mellon is preparing to advise the senate finance committee that a tax reduction of between 200 and 225 million dollars will be possible at this session of congress.

Figures for the March 15 tax receipts have not been analyzed fully by the treasury department, but present indications are that the president's original recommendation for a tax reduction of 225 million dollars will be possible of fulfillment. While Secretary Mellon refused today to set a definite figure, it was made plain that he will recommend tax reduction of at least 200 million dollars with 225 million dollars still representing the maximum.

Secretary Mellon will go before the senate committee next Tuesday with data showing that it will be impossible to cut taxes 225 million dollars, as proposed in the house bill. He will recommend that the measure, which has already passed the house, be slashed by at least \$65,000,000. A warning will also be sounded that congress must hold down appropriations to a reasonable figure if it wants even the more moderate tax reduction at this time.

President Coolidge has written Senator Simmons of North Carolina, that it is "rather doubtful" that he will be able to accept invitations to spend the summer in that state.

The letter stated that Mr. Coolidge would not be able to make a final decision as to his vacation plans "for some little time yet." He had received invitations to spend the summer at Asheville, N. C.

U. S. CRACKS ITS GOLDEN WHIP AND WORLD JUMPS!

Rules All Money Marts,
Says Federal Reserve.

Washington, D. C., March 26.—(AP)—The influence of the federal reserve board on world credit conditions was set forth today in its report for last year, showing that by encouraging or retarding international gold movements it assumed leadership during either easy or tight money rates.

With the gold movement as the key the board said it permitted the movement to have its normal effect on credits or offset it by purchasing securities in the open market, as it believed trade conditions justified. It did not confine its activities to credits, however, but through its power as controller of virtually one-half of the world's monetary gold stocks, aided foreign countries in stabilizing their currency and returning to a gold standard basis.

Four Billions in Gold. "The gold flow into and out of the country, which was thus a major factor in the credit situation in 1927," the report said, "has exerted an important influence on banking conditions in the United States since the beginning of the federal reserve system. Between June 30, 1914, and Dec. 31, 1927, the stock of monetary gold in the United States increased from \$1,891,000,000 to \$4,373,000,000, an increase of \$2,482,000,000.

"In adopting a policy of international cooperation in support of the gold standard, the federal reserve system has acted in recognition of the responsibility resting upon this country as the holder of nearly one-half of the world's stock of monetary gold and of the importance of sound monetary conditions throughout the world to the prosperity of industry and trade in the United States."

World Stabilizing.

The world has made great progress during the last year toward economic and financial reconstruction, the report adds.

In 1927 the federal reserve banks earned \$43,024,000, a reduction of \$4,576,000 under the year before, due largely, the board said, to a decline of \$54,717,000 in the daily average of the banks' holdings of bills and securities and a decline in earnings of the holdings. The banks handled 862,000,000 checks in 1927, compared with 823,000,000 in 1926, discounted \$22,200,000,000 of paper for member banks, purchased \$4,100,000,000 of bills in the open market, paid \$55,000,000 of government coupons, collected \$4,700,000,000 of non-cash items for member banks, and handled new issues, redemptions, and exchanges aggregating \$10,800,000,000 for the treasury department.

Nicaragua Rebel Shoots Marine, Escapes in Jungle

MANAGUA, Nicaragua, March 26.—(AP)—Sergeant Edward F. Rowe of Malden, Mass., was wounded slightly in the left arm last night at Condega when a rebel slipped out of the jungle, fired at him, and then vanished into the jungle again. Sergeant Rowe was inspecting the outskirts of the United States marine camp at the time.

GORMAN LOSES POINT IN \$100,000 SUIT BY MUZZEY

Federal Judge James H. Wilkerson yesterday sustained objections to the answer filed by former Congressman John J. Gorman in the suit brought by Prof. David Saville Muzzey, historian of Columbia university, for \$100,000.

The suit is based on a letter written by Gorman to Mayor Thompson in which Gorman attacked the Muzzey before the school trial board and elaborated his charges.

alleging libel in connection with utterances made by Mr. Gorman during the recent school board trial of former Superintendent William McAndrew. Mr. Gorman was allowed twenty days in which to file a new answer.

PRACTICAL BEAUTY ... THAT ... PAYS ITS WAY

GOOD taste, good looks—the appearance that gives your office a successful aspect can pay its way. In Art Metal equipment you buy more than beauty—more than clean lines and lasting finish.

Here is scientific design. That quality makes Art Metal a sound investment because it increases office speed and conserves office space. Here is fire-resisting, dust-proof, sanitary equipment... built by artisans who know the needs of modern business.

And this efficiency, this practical beauty, is wrought from enduring steel and bronze—finished with special enamels in natural wood grains and rich olive green.

Thus the moderate first cost is the last cost, since steel resists the wear that finally cripples other equipment.

Phone us for illustrated catalogs. Or an experienced representative will be glad to consult with you without obligation.

FACTIONS BACK U. S. CONTROL OF NICARAGUA VOTE

Only Sandino Opposes
Effort for Peace.

BY JOHN CLAYTON.

(Chicago Tribune Press Service.)
MANAGUA, Nicaragua, March 27.—From the time the United States Marines landed on Nicaragua soil opponents of the administration policy at home and abroad began their barrage of charges and implications, even before there was any opportunity to study in all its phases the administration's application of our isthmian policy to this situation. The American public was led to believe by opponents of the administration that we were infringing on the sovereignty of Nicaragua; that our intervention was dictated by powerful financial interests; that Wall Street had forced the government to land troops to protect its investments. British and Italian newspapers, ignoring the fact that their governments had pointed out to Washington the necessity of protection of their nationals as early as February, 1927, were loud in their charges of Yankee imperialism. The South American press was filled with abuse of the "Colossus of the North," and the French and German dailies had a field day.

and liberal leaders in Nicaragua seemed to be lost among the thunderings of Senators Borah, Heflin and Wheeler. Their words, based on a faulty conception of what the administration was trying to do, and on a lack of comprehension that we had undertaken the pacification of the country on the request of the leaders of both parties in the revolution, were echoed from end to end of South America.

A number of men sprang up in the United States who pretended to express the will of the Nicaraguans better than the Nicaraguans themselves. The anti-administration senators and representatives took their word as gospel, despite the fact that they had at their disposal accurate reports of the situation, untinged by partisan bias. Such reports simply did not suit the book of Senators Borah and Heflin.

This Tribune's correspondent has personal knowledge that Mr. Borah, in his capacity of chairman of the committee on foreign relations of the senate, had access to the reports of Col. Henry L. Stimson and of the American minister, Mr. Eberhardt, and the naval and marine authorities. He refused to read some of the documents, commenting that should he read them he might no longer feel free to follow his line of procedure.

U. S. Has Nothing to Conceal.

The answer to the charges, both at home and abroad, was found in Mr. Stimson's book.

In a like manner, any articles dealing with the situation in Nicaragua today and its bearing on our isthmian policy and our national security need conceal nothing. This fact became apparent to me during the first hours of my visit in Managua, when both Gen. McCoy and Mr. Eberhardt, our minister, told me I was at perfect liberty to examine any documents or material in their possession bearing on the situation.

mentals, we are in Nicaragua, first, because the presence of some armed force is necessary to protect foreign lives and property; second, because we were invited to remain here by the overwhelming majority both of the Liberals and the Conservatives; third, because our isthmian policy demands peace and tranquillity in all Caribbean nations.

Nation Backs Tiplapa Pact.

Despite the fact that there have been some attempts on the part of disgruntled elements to place obstacles in the way of Gen. McCoy, the vast majority of the nation is solidly behind the plan accepted by Liberal and Conservative leaders, and confirmed in writing at the conference between Gen. Moncada and Mr. Stimson at Tiplapa, which resulted in the United States undertaking to guarantee the three points I have already mentioned.

When the Liberal leaders laid down their arms, United States officials here were given to understand that Gen. Augustine Sandino was not of sufficient importance to be invited to the conference by his own immediate chiefs. This despite the fact that it was this leader who had saved the day for the Liberals on more than one occasion when Gen. Moncada's forces were seriously threatened.

Through this error Sandino was able to get away with 700 men, 100 mule loads of ammunition, and 14 machine guns, and make for the fastnesses of the Nicaraguan hills, where he has defied capture for several months.

And Sandino's defiance of his own commander's orders, and his successful evasion of the difficulties which led to the failure of the Nicaraguan congress to pass the electoral law giving Gen. McCoy authority to supervise the presidential election. President Diaz has since made this possible by decree.

REVISED HAUGEN BILL APPROVED BY COMMITTEE

House Body Kills Ketcham
Debuture Plan.

(Chicago Tribune Press Service.)

Washington, D. C., March 26.—(Special.)—By a vote of 15 to 6, the house committee on agriculture today approved a revised McNary-Haugen farm relief bill. The Ketcham export debuture plan was rejected by a vote of 13 to 8. Representative Haugen (Rep., Ia.) led the fight for the bill in the committee, of which he is chairman.

The measure is similar to the revised plan offered by Senator McNary (Rep., Ore.), chairman of the senate committee on agriculture, and recently reported favorably by that committee. It provides for marketing agreements with co-operators for the handling of surplus crops and the payment of losses by means of an equalization fee assessed upon the entire production only when price stabilization is not obtained through the use of government loans.

The provisions for the equalization fee only as a last resort is designed to placate President Coolidge who objects to its principle.

upon the appointment of members of the proposed farm board and otherwise seeks to meet objections raised when President Coolidge vetoed the McNary-Haugen plan in the last congress.

Paris Phone Service to U. S. to Be Opened Today

PARIS, March 26.—Chicagoans will be able to talk with Paris by telephone, starting tomorrow, when trans-Atlantic phone service formally will be inaugurated with a conversation between Minister of Commerce Bokanowski and Secretary of Commerce Herbert Hoover at Washington. The rate between Chicago and Paris will be \$50 for the first three minutes and \$6 a minute after that.

You can own a PACKARD SIX for what your present motoring costs

THERE are only two reasons for you to buy a lower priced car than a Packard Six. The first is that you do not want a Packard—that you would really prefer a car less roomy, less comfortable and less beautiful, a car lacking the Packard reputation, distinction and long life.

The second reason is that you have never stopped to figure it out in black and white that Packard Six transportation, over a period of years, costs you no more than lesser car motoring.

This advertisement is addressed to those thousands who admire and long for a Packard—to those whom reason number two is keeping from the enjoyment of the car they really want.

If you can and do pay as much as \$1500 for a car then you can buy a Packard Six. And on an ownership basis it will cost you no more per year than your present motoring costs.

There is nothing complicated about proving that statement. For behind that truth lies the simple fact—easily proved—that you, like other Packard owners, will keep your Packard longer.

The Packard Six is built to last longer. Owners want to and do drive it approximately twice as long as lesser cars. We know that the average owner of a \$1500 car does not drive it more than two years.

Other costs are approximately equal and the lower depreciation of the Packard more than offsets the higher first cost which makes its longer life and finer service possible.

Any Packard may be purchased on a monthly payment basis. Your present car will no doubt more than take care of the down payment. May we appraise it?

ITALIAN-VATICAN
PEACE UPSET BY
ATTACK OF POPE

Scores Catholic Party for
Slighting Him.

BY DAVID DARRAH.

(Chicago Tribune Press Service.)

(Copyright, 1935, By The Chicago Tribune.)

ROME, March 26.—The negotiations between the Vatican and the Fascist government are believed here to have been upset seriously, if not wrecked, by Pope Pius' broadcast yesterday before the diocesan committee of Rome. The pope, in a bitter speech, repudiated members of the Fascist Catholic party, a section of the Catholic party which adheres to the Fascist line.

He also attacked Mussolini's undersecretary, Matteo Gentili, and referred to Rome as still belonging to the Vatican.

The prefect of police of Rome, in order to avoid further stirring up the matter, today ordered Rome papers not to print the pope's speech. However, the Vatican organ, Osservatore Romano, which is protected by the Italian guarantees, printed the address verbatim.

Aggravated by Catholics' Convention.

The cause of the pontiff's outburst was a convention of the Centrist Catholic party last week here, in what the pope regards as his own territory. The Catholic political leaders, however, the relations between the Vatican and the Fascist government without first consulting the pope or consulting him.

Pope Pius, in his speech, began by congratulating the bishops on the anniversary of the signing of the Lateran pact, but he said that they, at least, had abandoned the meeting or else met in another city.

He continued, however, that "other" Catholics, those Catholics coming from diverse parts of Italy, met here in this Rome of ours, but failed to come to visit their father. It would have been more than enough, either to have abandoned the meeting or else met in another city.

High Blood Pressure.

Dr. Woodruff of Port Angeles, Wash.: "Flaxolyn successful in this condition."

Constipation!

Dr. B. Luntz, editor of the "Nature Path": "Flaxolyn is a natural Food-Laxative, and priceless in all digestive ills."

Nervousness!

Dr. L. McMillan, Chicago: "Flaxolyn has no equal or duplicate anywhere."

In addition to the above the London Health Centre, Dr. George Starr White, the famous Pacific Coast medical author, and other authorities have highly endorsed Dr. Luntz's Herbal Flaxolyn.

Dietician John Maxwell, who conducts five health food stores and restaurants in the Chicago Loop, enthusiastically recommends Flaxolyn to his thousands of patrons.

Don't wait. Start taking Flaxolyn. It does not gripe because it is a natural food. You will feel the tonic change at once. You will enjoy renewed vigor, a new grip on life. Large box of many treatments, \$1.

D. F. KELLY OF FAIR
FIRST TO PETITION
FOR SUBWAY IN LOOP

Michael J. Faherty, head of the board of local improvements, received the first favorable response yesterday from his invitation to business firms to petition for a subway. The response came from D. F. Kelly, president of the Fair.

"May I say to you that the Fair will be pleased to pay any portion of the cost of a subway in front of our premises, especially so if payments are spaced over a period of twenty years," Mr. Kelly wrote. "I hope when the matter is up for consideration you will arrange for a station at Adams and State streets, and if this is done we will be glad to pay a larger percentage than we would otherwise pay."

Mr. Faherty said he hoped Mr. Kelly's letter would start a general movement among loop business men that will result in the circulation of a petition, public hearings and passage of a subway ordinance.

With Cooking
Odors and
Greasy Fumes

See how simple it is to install the New and Improved ILGAIR Electric Ventilator. It fits any sliding sash window. Merely attach two metal brackets to the window frame and a pair of push rods to the sash. There is no interference with raising or lowering either sash. The unit is entirely portable. Take it with you when moving. Operates from your electric light socket for a few cents a day. Sold complete, ready to install, with all the necessary hardware and 8-foot extension cord and plug. Manufactured, tested, sold and guaranteed as a complete unit.

Ventilate your Kitchen with an ILGAIR Electric Ventilator— —not a trace of cookery passes the Kitchen Door!

NOTHING you have ever dreamed of will add so much to your pleasures of housekeeping as an ILGAIR Electric Ventilator installed in your kitchen for removing those objectionable cooking odors and greasy fumes that trail thru your home and soil your woodwork, furniture and decorations.

With an ILGAIR Electric Ventilator in your kitchen you can cook corned beef and cabbage, fish, fried cakes, onions—anything you like—without the slightest suggestion of cookery passing the kitchen door. Your guests won't even suspect there's a dinner on the stove. Every room in your apartment or home will be cleaner and more inviting.

Imagine the joy of working in a kitchen that is delightfully ventilated with an ILGAIR. The atmosphere is pure, fresh, and invigorating in any kind of weather, winter or summer. And this compact, quiet-running exhaust fan made by ILG is now designed for quick and easy installation in any sliding sash window. It connects to your electric lamp socket, costs

NOTE: In the cooking of an average meal, steam, fumes and greasy vapors contaminate about 500 cubic feet of air per minute. To effectively discharge this stuffy, odorous atmosphere and replace it with clean, pure air, the ILGAIR Electric Ventilator is designed to exhaust 750 cubic feet of air per minute. Remember this when you choose your kitchen ventilator.

but a few cents a day to operate, and is completely portable so you can take it with you when you move.

Ask your neighborhood dealer for a free demonstration in his store or your home—see this New and Improved portable model of the ILGAIR Electric Ventilator with a fully enclosed self-cooled motor, especially designed for the home, with a capacity of 750 cubic feet of air per minute. Make sure you see the ILGAIR—it's painted green—sold and guaranteed by the authorized ILG Merchants listed below.

Umpires—Fahning and Casey.

BY IRVING VAUGHAN.
 [Chicago Tribune Press Service.]

Los Angeles, Cal., March 26.—Although the Chicago Cubs rose up on their hind legs and took another swag at the Angels this afternoon, the victory was merely incidental to the main proceedings. The important feature was that the Chicagoans exploded four very robust home runs along with a lot of foul swings to run away with the day's show by the lopsided margin of 11 to 5.

The ringleader in the informal competition for long distance taps was Kiki Cuyler, who twice lined the ball far and away before tapering off the afternoon's workout with a single.

More Heavy Hitting.

Next in line was Hack Wilson, who contributed a homer and a single, and he made valliant efforts to add to this pair of blows, but in two attempts swung so hard that he fanned. Still he was not discouraged, and the help of Norman McMillan, and whatever honor remained after these fellows had done their work probably belonged to Molly Maguire with a pair of timely singles, a pair of passes, and four runs.

Percy Lee Jones, the able southpaw, started pitching for the Cubs and the plan was to let him have a seven-inning dose for the first time this year. He was not the pitcher he appeared to be in his last appearance, so after five rounds he was excused and Sheriff Blake finished more or less hand-

Wilson's home score. Maguire.

Being in a hurry to accomplish something, the pitcher tried to wrestle the ball out of his hand. The result was a first inning. After English had been disposed of, Maguire beat out a slow roller toward third base. Cuyler's effort was not bad but it was spoiled by a throw from the pitcher to the right field screen and pulled in the third with one hand. Then Wilson enriched his homer over the left field porch and followed Maguire around the bases.

The Cubs broke out again in the third, this little matter being due to Maguire's first homer. The Maguire was playing a supporting role. Inning after inning the Cubs were scoring. Barfoot. Cuyler came up and hit one that sounded just as good as it looked. When the ball came down it landed on the roof of a house across

Angels Score Three in Fourth.
In the fourth frame the Angels scored three runs off Jones. Berger started this rumput with a single and Jacobs drew a pass. The next two batters were flattened with ease. Then Percy Lee was shocked by three singles in a row, but he finished the inning by whiffing his old teammate, Nelson.

Peters climbed to the hill for the Angels in the fifth and the Cubs lost no time convincing him he was not at an ice cream social. Maguire blew open the inning with a single over third and Cuyler was safe on a fumble by Dittmar. Wilson lined one to enter for a single and Maguire scored while Cuyler hiked to third. Wilson tried to make two bases on his hit, but the Angels disappointed him. Then, however, walked and with Cuyler

After this the struggle was not exactly a matter of interest to the spectators, but the Cubs continued to enjoy themselves. They had a large hitler for Jones in the sixth and knocked the ball over the wall in left. They laughed some more when Cuyler took charge of a pitched ball and sent it on a bee line over the center field fence for his second homer.

day, using the Corona as a hotel. The steamer will be held up for a few hours on Saturday so that the fishing enthusiasts may return to New York.

hitting a single, a double, and a triple in four times up.

Big Gloom Clouds.

Ted Blankenship, counted on as one of the big four pitching staff, who was slaughtered the last time out, allowed 10 bases on balls in 4-2-3 innings.

Grady Adkins, the Little Rock meat

fitting the bill. Adkins, who was sent in for the slugger, Randy Jones, a left-handed pitcher was working at the time. That's as good a reason as any. Moore had made his single, his double, and his triple off right handers.

Under the rays of sunshine heading we should have included the fact we do not have to watch the Sox play tomorrow, it being an off day,

[illegible]

Paddy Waltier of Melrose Park took the decision from Johnny Hopfinger, a local 136 pounder, in the six round semi-windup. Howard Shaddon was given the decision over George Brown. Johnny Caserio won from Bobby Allen by the decision route, Eddie Wolff was given the verdict over Tim O'Neill, and Tony Sanders won from Santo Reese by a decision in the other fights.

SIMONICH BEATS RUSSELL.
Canton, O., March 26. (P)—Joe Simonich, Montana middleweight, defeated George Russell, Philadelphia, in ten rounds here tonight. Kay Kelly, Akron Negro welterweight, knocked out Jack Bentley,

Percy Lee was shocked by three singles in a row, but he finished the inning by whiffing his old teammate, Tolson.

Peters climbed to the hill for the Angels in the fifth and the Cubs lost no time convincing him he was not at an ice cream social. Maguire blew open the inning with a single over third and Cuyler was safe on a fumble by Dittmar. Wilson lined one to

exactly a matter of interest to the spectators, but the Cubs continued to enjoy themselves. They had a large laugh when McMillan appeared as hitter for Jones in the sixth and knocked the ball over the wall in left. They laughed some more when Cuyler took charge of a pitched ball and sent it on a bee line over the center field fence for his second homer.

ENTRIES CLOSE TODAY FOR A.A.U. SWIMMING MEET

Championships to Open
Monday at C. A. A.

With entries already received from coast to coast for the National A. A. U. indoor swimming and water polo championships to be held in Chicago beginning Monday, the official lists will close today with John T. Taylor, chairman of the national swimming committee. The championships will be conducted under the joint auspices of the C. A. A., I. A. C., and Lake Shore A. C. Competition on the first two nights will be held in the Cherry Circle pool. Events on the third and fourth nights will be decided in the I. A. C. tank, while preliminaries and finals in water polo will be held at the Lake Shore A. C. on Friday and Saturday.

George Kojan of Rutgers college, the national champion in the back stroke, will be here to defend his title. Walter Spence of the Brooklyn Central Y. M. C. A., world's champion breast stroke swimmer, has sent in his entry and so has Pete Des Jardins of Stanford university, one of the best divers in the country from the low and high boards.

Walter Lauffer of the Lake Shore A. C., who has been swimming 100 yards in close to world's record time, is expected to give Johnny Weissmuller of the I. A. C. some keen competition in the free style swim.

George Fiesler, a member of the New York A. C. 300 yard medley team will also compete in the free style events.

The C. A. A., I. A. C., Olympic club of San Francisco, and the New York A. C. will be represented in the water polo competition. There is also a possibility that the Detroit A. C., Stanford university, and Northwestern will send teams to the championships.

Twin Cities Plan Boxing Tournament

BY WALTER ECKERSALL.

Realizing the success and possibilities of the intercity amateur boxing gloves tournament held last Saturday at the Coliseum, between teams from New York and Chicago, a similar series of contests will be held next winter between St. Paul and Minneapolis.

George Barton, sporting editor of the Minneapolis Tribune, who was one of the judges in the New York-Chicago meet, left yesterday for home where he plans to start preparations at once for a tournament between teams of the Twin Cities next winter.

Barton Praises Show. "I have been identified with boxing for nearly thirty years and I never saw a better boxing show than the one at the Coliseum last Saturday night," Barton said.

SMITTY—O, SAY, CAN YOU SEE!

Vierup Ring Show Set Back to Thursday

BY WALTER ECKERSALL.

The boxing show scheduled to take place tonight at the Knights of Columbus clubhouse, 4723 West Madison street, has been postponed until Thursday night. Promoter Nellis Vierup announced the postponement because of a conflict with the K. of C. basketball series.

Following this announcement, Pietro Corri, the New York Italian heavyweight, and Jimmy Byrne of Louisville resumed training and boxed with their sparring mates. Corri needed more hard work and will be in better condition on Thursday night. Byrne will do just enough work to keep on edge.

Les Marriner, a member of the University of Illinois' conference championship football team last fall, and Harvey Mortenson of Chicago, who

SHIES AT BOUT

New York, March 26.—[Special.]—For a few moments today arrangements for that long threatened heavy weight elimination bout between Tom Heeney and Johnny Risko appeared about to be consummated. But just when John Chapman, Tex Rickard's assistant, thought he had maneuvered Charley Harvey, Heeney's manager, into signing articles of agreement, Charles suddenly figured that perhaps there might be a tricky little senegambian hiding somewhere in the woodpile, and eased himself out of the party.

If Charlie doesn't decide on some definite plan of action by tomorrow he may find his fighter a heavyweight challenger in name only. If he doesn't listen to reason, Chapman will ask the boxing commission to sanction a match between Risko and Paulino Uzcudun, at the Yankee stadium in June.

The New York commission incidentally, has dispatched a brand new ultimatum to Tunney at Miami Beach. The wording has not been disclosed, but it is understood that the commissioners told Tunney that unless he tells them by tomorrow just who he intends to fight and when and where, he will be placed on the ineligible list.

OAK PARK PREP CAGERS ENTER U. OF C. TOURNEY

Entry of Oak Park, one of the best teams in the Chicago suburban territory, today brought the total of teams in the University of Chicago's national basketball tournament to thirty-two. Oak Park last played in the tournament in 1920.

Invitations were sent yesterday to six teams: Canton, Illinois champions; Central Falls, R. I.; Burlington, Mass., winners of the M. I. T. tournament; Rock Springs, Wyo.; Moorehead, Minn.; and Cantonville, Md.

Only a few more invitations are to be sent out by Manager H. O. Crisler, as an effort will be made to hold the tournament to forty teams.

You can "feel" new life in your hair

After One Thomas Treatment

Your scalp tingles with a fresh, healthy feeling even after the first Thomas' treatment! You instantly see for yourself how basic and necessary each part of this fifteen year proved scalp treatment is and how it can end dandruff, stop falling hair and actually regrow hair where all other superficial imitations have failed. You feel life returning to the dormant sources of hair nourishment after the first Thomas' treatment; and within a remarkably short time you see new hair on your scalp.

The Thomas' treatment is given only in Thomas' offices, under the direction of skilled specialists who do nothing but examine and treat scalp disorders. Come in today and see for yourself exactly how this treatment can produce results in your particular case. There is no charge or obligation for a complete examination.

Women are treated in a separate department.

The Modern Philosophy of Business

In earlier times the philosophy of business was summed up in the phrase, "Business is business."

Today men realize that it is something more. According to the modern philosophy, business is service, profit-paying service—for there is nothing sentimental in the modern definition.

The old philosophy was inadequate, one-sided, short-sighted. It ignored the fact that there are two sides to every transaction and that both sides must be benefitted in any successful transaction.

It is now recognized that, unless there be in every transaction a spirit of cooperation, a spirit of "live and let live," a well-considered intention to render a service, business cannot endure and prosper.

The Standard Oil Company (Indiana) is thoroughly devoted to these modern principles. How rigidly it adheres to them in word and deed, the public is well able to decide.

The people of the Middle West have good opportunity to judge the Standard Oil Company (Indiana).

Its products are products that are purchased often—in comparatively small quantities. They are apt to be purchased by the same customers in widely scattered places. If these products were not uniform—if they were to vary in quality—it would be discovered immediately. Each purchase carries the reputation of the Company with it.

More than four thousand Standard Oil Service Stations cover the ten states of the Middle West. They make it possible for the Company to serve its customers directly. Every week it comes into direct contact with the public many thousands of times. These frequent meetings give the people opportunity to judge of its sincerity and ability.

In every community this Company is a local institution. The druggist on the corner and the doctor up the street own its stock. The man in the next block has charge of one of its Service Stations. Owners and workers and customers are friends and neighbors. The people of the Middle West know it intimately.

Millions of purchases and countless contacts over a long period of years have built the reputation for dependability of the Standard Oil Company (Indiana). In every community in the Middle West it enjoys a friendship and a confidence that are priceless. Its success has been success in serving.

K. OF C. TEAMS RESUME TITLE SERIES TONIGHT

Marquette, De La Salle
in First Game.

Six more qualifiers for the Knights of Columbus basketball league championship series will play tonight in the remaining games of the first round at the 135d Regiment armory, Madison and Rockwell streets.

Marquette of the North division, winner of the league title for the last two years and a favorite to repeat this season, will meet De La Salle of the Central division at 7 o'clock. It will be the third time they have clashed in championship series, Marquette having won the two previous contests by a point.

Harry, Perez in Second Game.

Harry of the West division and Perez of the South will stage the second contest. Perez is one of the trio which tied for the South division championship. Harry fought its way to third place in the west section after a hard struggle.

Dowling, winner of the south division play-off, faces Father O'Gorman of the north division in the concluding contest. Dowling has Bill Brown back in the lineup.

Second Round Thursday.

Tonight's winners will qualify for the second round, which is to be played Thursday night at the same place. Madonna of the Central division, Hennepin and Damen of the West, and St. Francis of the South-west section drew a bye and automatically advanced.

MARULLO BEATS McTIGUE; FANS JEER DECISION

New York, March 26.—(AP)—Tony (Tong) Marullo of New Orleans won a judges' decision over Mike McTigue, former light heavyweight champion of the world, in a 10 round bout here tonight. Marullo weighed 172 pounds, his opponent 174.

Marullo piled up a big lead on the veteran Irishman in the early rounds to take the verdict, which was met with an outburst of jeers from the fans.

Chicago Kennel Club Opens 29th Annual Show Friday

BY BOB BECKER.

Dog fans from all over the middle west will descend on Chicago this week to look over the hundreds of blue blooded canines which will be on exhibition at the 27th annual show of the Chicago Kennel club. The show opens Friday, in the First Regiment armory and continues through Sunday night.

Judging by the schedule of entries as made up a couple of days ago, quail hunters, duck shooters, rabbit gunners and others interested in outdoor sports requiring the use of dogs will find a large number of these sporting breeds at the show. Included in the group will be several representatives of the sporting classes.

Steinke Wins Bout from Wladek Zbyszko

New York, March 26.—(Special)—Hans Steinke, giant German wrestler, furthered his claims to the heavy-weight grappling title when he downed Wladek Zbyszko of Poland after one hour 26 minutes and 16 seconds of wrestling at Madison Square Garden tonight.

which have made names for themselves on the bench before coming to the Chicago show.

For example, that classy beagle champion Meadowlark Fear Not, which was picked as the best beagle and the best sporting dog at the recent New York show, is scheduled to strut around the ring of this city's exhibition.

This year for the first time in the history of the Chicago dog show an Irish water spaniel will be exhibited. Dr. Harry C. Asher of Chicago has entered his Duke O' Dave. However, it looks as if the Labrador retriever, a breed in which every duck hunter should be interested, might be missing this year, judging by the entry list which has reached our hands. The Thomas M. Howell kennel of Barrington, Ill., is not entering its great string of Labradors this year.

The cockers and springer spaniels promise to be quite numerous and there should be some merry scraps for blue ribbons among these breeders. We note that Rowcliffe Miracle, the handsome little cocker which is a kennel mate of the sensational field trial winner, Rowcliffe War Dance, is entered. Wisconsin is sending quite a string of cockers which should make things interesting.

Dorothy Page May Compete on Badger Golf Team

Madison, Wis., March 26.—(Special)—University of Wisconsin wants to enter a woman athlete in western conference competition this spring, it became known today. She is Miss Dorothy Page, 18, women's western golf champion in 1926 and one of the foremost players in the country.

Miss Page is a sophomore in the university, and a daughter of Prof. W. H. Page of the law school. Coach Andy Leith of the Badger golf team is waiting a ruling on Miss Page's eligibility, and thus far no technicalities have been unearthed that would prevent her from representing Wisconsin on the links.

"I'd love to play with the Wisconsin team if I were good enough to win a place," Miss Page said this afternoon. Holder of the women's western junior championship in 1924, winner in the women's western at Chicago in 1926, and Wisconsin women's champion last season, Dorothy prizes a varsity "W."

Mike Dundee Outpoints Carpentier at Pittsburgh

Pittsburgh, Pa., March 26.—(AP)—Mike Dundee, Rock Island, Ill., featherweight, won a decision here tonight over U. S. Carpentier of Pittsburgh. They fought eight rounds.

BROWN PROVES BLACKMAIL, MANN ACT CASE ENDS

San Francisco, Cal., March 26.—(AP)—An indictment charging H. D. Brown, well known race track owner, with violation of the Mann act, was dismissed today, George Hatfield, United States attorney, here, announced after receipt of a telegram from Washington. The indictment was returned in Washington at the time Brown was living on his ranch in Shasta county. Decision to quash the indictment was reached by federal authorities after Brown produced evidence tending to support his charge of a "most gigantic blackmailing scheme which the complaining witness and some of her relatives have organized and kept alive for three years."

Pyle's Troupe Jogs On; Passes 806 Mile Mark

Old Laguna, Pueblo, N. M., March 26.—(AP)—Covering the 33.9 miles from Grants, N. M., to this town in 4:41, Ed Gardner of Seattle today won the 23d lap of the Los Angeles to New York marathon. Gardner's elapsed time for the 806 miles from Los Angeles is 154:30:06.

Peter Gavussel of Southampton, England, and Andrew Payne, who are running neck and neck for second place on the basis of elapsed time, came in at the same time to tie for second.

ADVANCE IN GRAIN PRICES INSPIRED BY BAD WEATHER

BY CHARLES MICHAELS.

Unfavorable weather and crop reports from the winter wheat belt, with forecast for freezing temperatures to follow rain and snow in the central west, brought in aggressive buying of futures yesterday and prices advanced readily. The finish was about the top with net gains of 1/4 to 1/2¢, corn 1/4 to 1/2¢, oats 1/4 to 1/2¢, and rye 1/4 to 1/2¢.

General run of crop reports on winter wheat from the central west were decidedly bullish, and the outlook shows no improvement despite the recent wet and warm weather. No rain fell in Kansas over the week-end, and high winds prevailed in parts of that state and in Oklahoma, and the trade was apprehensive of damage. New crop months showed the most strength, with some selling of May and buying of July by commission houses.

Wet weather over the belt and a decrease of 1,388,000 bu in the domestic visible supply to aggressive buying of corn futures which carried the May above \$1.00 and closed the market at the top. Offerings were not large, although there was selling by long as held by holders of offers on the upturn. Total visible 11,000,415,000 bu. Nothing against 45,330,000 bu last year. Nothing was heard of export demand. Local spot basis was higher to 20 lower. Buenos Aires and Rosario closed unchanged.

Oats market was unsettled and held within a range of 1/4 to 1/2¢ for the active deliveries, closing firm with other grains and on the less favorable weather for seeding. Short covering was evident in rye, which found offerings small. There was a little export business put through at the seaboard.

SLIGHT SLACK IN TRADE CUTS DEEP INTO NET PROFITS

BY HARPER LEECH.

What a small actual recession in business may occasion a great amount of talk is well illustrated now that the corporation returns for 1927 are approaching completion.

With a decline in railway traffic of only 2.9 per cent, and with truck and internal water borne tonnage probably registering a counter increase, with a decline of the rate of industrial production figured at only 2.3 per cent, those who said last year that the old fashioned business cycle has faded out of the picture, to be replaced by a much less precipitous wave form, stand vindicated so far as the movement of goods is concerned.

These figures also reinforce the impression from contemporary facts and figures that we are probably past the bottom and on a slow up curve like those of 1922 and 1924.

The standard statistics compilation of 423 important industrial, railroad and utility corporate statements discloses that in a year of slight decline in output of goods and movement of rail traffic, with a gain of approximately eight per cent in output of electric power, there was nevertheless a drop of 4.8 per cent in corporate net income.

Industrials fell off 7.7 per cent in net, despite the outstanding exceptions like motors and steel, railroads fell off 14.2 per cent in net and utilities gained 9.4 per cent.

The plain lesson of these figures is the old lesson, that profits can only grow rapidly, when volume of production is expanding and that a drop in production is likely to mean a much sharper drop in profits.

All these business writers who have been talking about limiting production and contracting markets as a remedy for "profitless prosperity" appear to have been ignoring that.

Note the indications that income tax payments this month probably reflect a greater amount of taxable net income received by the people last year than in 1926.

This fact, when considered with the remarkable stability of the incomes between \$5,000 and \$25,000 per year, during the economic fluctuations of recent years, indicates the rise of that new middle class which this column has noted from time to time and the creation of a vast number of small professional and independent enterpriser incomes which have been ignored in nearly all of the discussions of profits and employment.

COTTON PRICES HIGHER

Cotton was bought early on the steady to firm tone in Liverpool and prices at one time were up 12 to 22 points. At the close American markets were 11 to 24 points higher with March in New Orleans showing the most strength. Spots were 15 points higher with New Orleans 19.00c and New York 20c. Liverpool closed 9 to 11 points higher with a more active spot trade, sales being 7,000 bales. Southern spot markets were more active on Saturday and higher and had their effect on futures.

Weather over the belt was rainy, with showers and thunderstorms predicted. There are fair stocks on ship board at the different points awaiting shipment, but they are below last year's. Price follow:

Katy Accused of Violation of Clayton Act

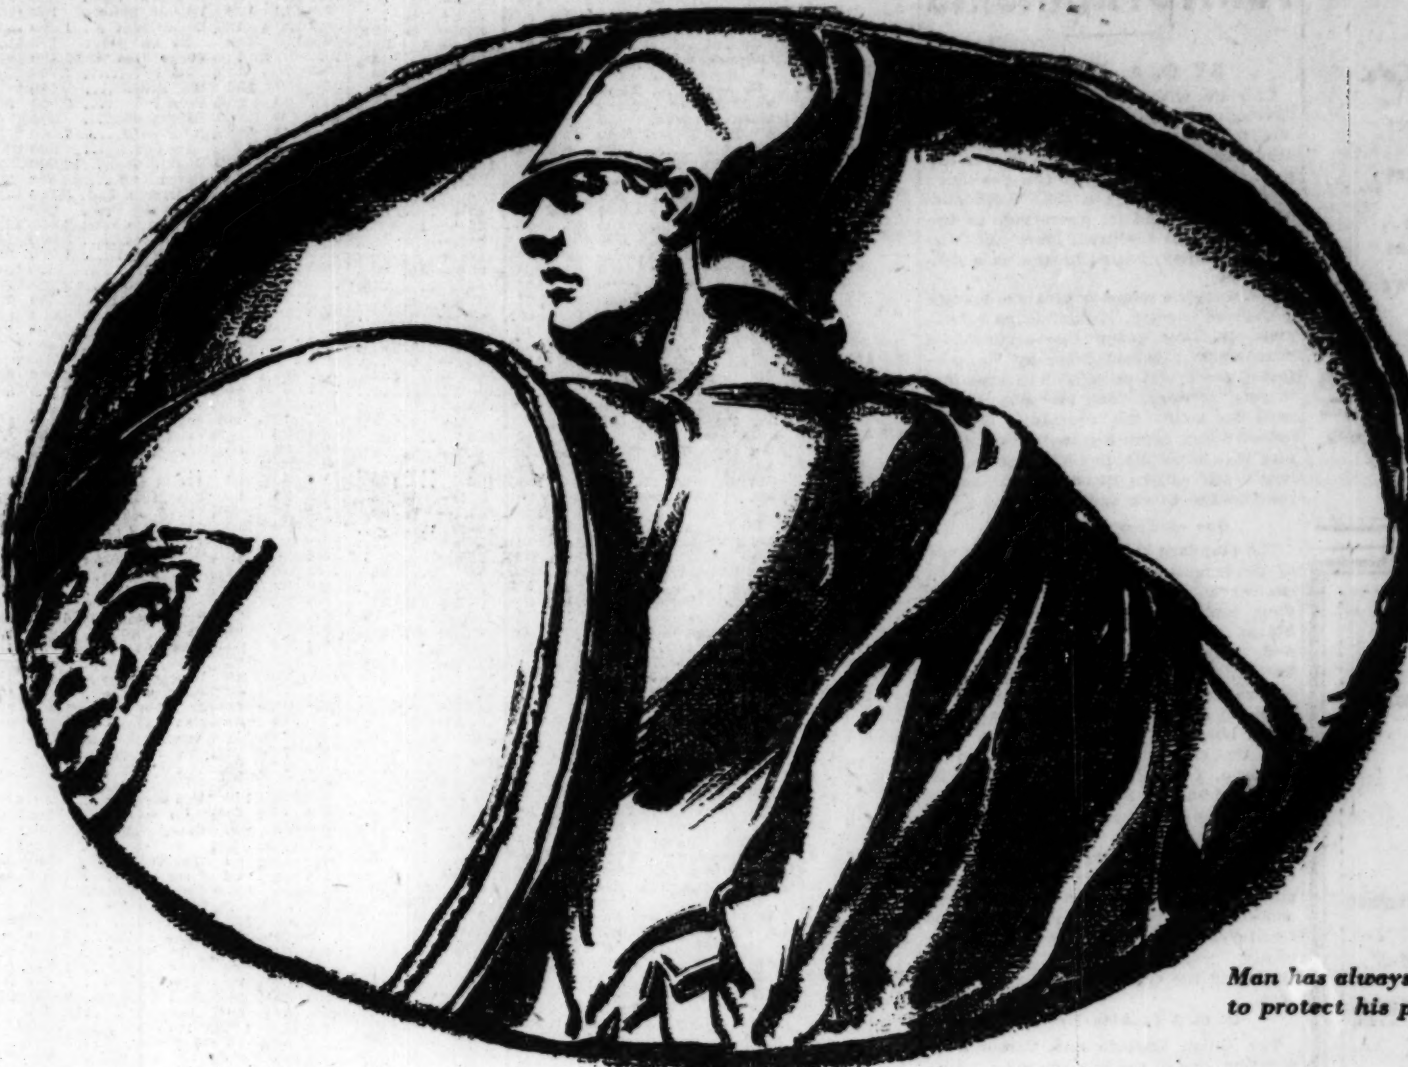

Washington, D. C., March 26.—(P)—A second proceeding under anti-trust laws was instituted today by the interstate commerce commission against railroads concerned in the Love project for merging southwestern trunk lines.

The Missouri-Kansas-Texas railroad was made a defendant by the commission's charge that it violated the Clayton act in preliminary transactions looking to the merger and like the Kansas City Southern, another associated in the same transaction, was ordered to show cause why it should not rescind purchases of stock in other railroads which it has already completed.

The Missouri-Kansas-Texas system, along with the Kansas City Southern and the St. Louis Southwestern railways all were involved in the consolidation plan brought forward by L. F. Love and associates but disapproved by the commission some months ago.

The commission later made a formal complaint against the Kansas City Southern because of its purchase of stocks of the other two corporations and today repeated the same action with respect to the Missouri-Kansas-Texas company. Today's complaint charged that the Missouri-Kansas-Texas had "acquired directly or indirectly 125,000 shares of the preferred stock and 20,000 shares of the common stock of the St. Louis Southwestern railway without the approval and authorization of the interstate commerce commission, and in violation of section 7 of the Clayton act."

The Missouri-Kansas-Texas was ordered to show cause before the commission at a hearing on May 1 why it should not divest itself of the unlawfully owned stock.

Man has always sought to protect his property

TANGIBLE ESTATE PROTECTION

If an investment made by your trustee proves unfortunate, the loss is none the less real even though "he used his best judgment."

To protect trust estates against errors of judgment, Chicago Title & Trust Company has set aside \$2,000,000 in a Special Reserve Fund as an assurance against loss on interest-bearing investments purchased by it.

Before the estate can suffer loss, this company must lose \$2,000,000.

—definite, tangible Protection.

In a new folder we explain this important subject of Estate Protection

THE STADIUM AT SOLDIERS' FIELD

ATTENTION TO DETAIL

THOSE who merely shake hands with an official, occasionally ask a few questions and look to the bank for the handling of a checking account, are not getting the service their bank is ready to give them.

Unseen to outsiders there is an accurate, highly developed organization that is handling intricate detail—a volume of routine that would amaze you.

There is service here that you possibly will never require—but which is here for you, in your need of it.

In the 66 years this bank has served Chicago we have constantly improved our service and facilities.

May we serve you?

The progress of Chicago in the last 66 years has been paralleled by this old institution

If You Love Your Children Why Not Let Them Know It?

McGladry's
Washington

"I wish you would write your opinion," said a letter that came to me a few days ago, "of a mother who will boast that she has no patience with children—especially when there is only one child. I am not an advocate of birth control for I love children, but I should say that it would be far better for some women who call themselves mothers never to have had a child—for the child suffers."

I witnessed a mother scold and slap her little child that looked no more than two years old because the child asked questions and was evidently tired and nervous. I heard another one say, "I can't stand that child—I have no patience with her." I wonder what the poor child had in her mind when she was punished for only the little things that every child says or does.

"There are many women today who are children who would be happy to have a little child of theirs to ask questions and to make the trouble for them that this woman thinks she cannot stand."

How often have I, too, seen children in parks, on boats, in trains receive just the treatment described in this letter. The whole demeanor of their mothers showed that their feeling was, "What a nuisance a child is."

Now, if these women can't love and enjoy children they can't, and we ought not to blame them for that. But then, they should never have children—the injustice and suffering it means to the children is too great.

Sometimes, though, women will act in this intolerant, annoyed, impatient way with their children much of the time—and, strangely enough, really love them.

I know a woman whose children were very little, who sacrificed everything for them, but who had a gutting tongue and a sarcastic manner. Her children grew up never realizing her feeling for them. She apparently did not know how to make them conscious of lovingness, and she was a very unhappy woman because of that. Her own crusty speech and odd temperament were a barrier between them.

If some mothers could step outside themselves for a little while, see how they seem to their children, hear their own harsh or snappy voices and incessant correction, correction, correction, they could realize then how barren they are making their children's lives and what sorrow they are often starting up for themselves. To love people, big or little, isn't enough. That love must filter through to them in words, deeds, and looks to bring happiness.

There is an excellent chance for gardeners in this region to find out nearly everything they want to know about designing and planting a flower garden back of their homes if they will visit and study the landscape designs around fifty or more miniature homes exhibited at the Chicago Garden and Flower show now being held at the Hotel Sherman. Take along a pencil and pad so that notes can be taken when you visit the show.

With each one of the homes, exhibited by the garden clubs in and around Chicago, there is a plan showing the beginner the entire scheme used in planting the flowers, shrubs and trees around these model homes. Artificial material has been used to carry out the details to show where each plant is to be set and where each piece of lawn furniture, walk or flagstone is to be put.

The exhibit is not only educational but so unique that no other show in this country has ever equaled it, according to experts.

In addition to this valuable exhibit, placed where visitors have a chance to study it and gather ideas for their own use, there are several interesting talks to be given at the show today by experienced flower growers. Mrs. Charles D. Ewer will give her illustrated talk on "Japanese Floral Gardening" at 11 a. m. Mrs. Frederick G. Moore will give a talk on "Outdoor Gardening" at 2 p. m.; Mrs. James H. Heald Jr. will show color slides and give a lecture on "Practical Flower Gardening" at 3 p. m., and "Wild Birds in Garden and Lawn" will be discussed by Mrs. A. H. Conrad at 4.

Jens Jensen will talk at 8 o'clock in the evening, giving pointers on "Some Phases of Gardening."
